

7/15/60

Memorandum No. 63 (1960)

Subject: 1961 Annual Report.

Attached is a suggested draft of the 1961 Annual Report.

Note that this draft raises the question of whether the Commission will request authority from the 1961 Legislature to study additional topics. In connection with this matter, Exhibit I (attached) is a list of the Status of Studies on Commission's Agenda. The studies listed in Exhibit I include only those studies that are not scheduled for completion prior to the 1961 legislative session. The suggested draft of the annual report indicates those studies upon which the Commission will make a recommendation to the 1961 legislative session.

The report will be revised by the staff to reflect any changes made with respect to membership of the Commission, number of two and three-day meetings, etc. Such changes can be made up to approximately the 5th of December.

Respectfully submitted,

John H. DeMouly
Executive Secretary

EXHIBIT I

STATUS OF STUDIES ON COMMISSION'S AGENDA

No.	Study	Research Consultant	Study Received	Status
12	Instr. to Jury Room	Staff	X	Add. Work nec.
