Memorandum No. 84(1960)

Subject: Publicity Regarding Commission's 1961 Legislative Program

At its August 1960 meeting the Commission discussed whether it should publish a notice in the State Bar Journal listing the topics that are included in the 1961 legislative program of the Commission. The notice might include a statement that the Commission has prepared tentative recommendations on each of the topics listed in the notice and has copies of its tentative recommendations available for distribution.

No action was taken on this matter at the August meeting. It was suggested that it be included on the agenda for the September meeting of the Commission.

Respectfully submitted,

John H. DeMouilly  
Executive Secretary
