First Supplement to Memorandum 85-7

Subject: Study L-1050 - Probate Code (Guardianship-Conservatorship)

Jeffrey Dennis-Strathmeyer writes concerning Memorandum 85-7:

I would advise a minor amendment to Arthur Bridgeman's excellent recommendation for eliminating notice to babes in arms in conservatorship proceedings. I have a conservatorship involving a man who has minor children (he was turned into a vegetable by negligent administration of anesthesia). I think the minors are entitled to notice before age 18, and this might occasionally apply to siblings. I would suggest the last phrase be changed to "who have attained the age of 14 years."

Sincerely,

John H. DeMouilly  
Executive Secretary
