

9/9/83

First Supplement to Memorandum 83-79

Subject: Review of Law Revision Commission by Department of Finance

The Department of Finance is making a study of all state boards, commissions, standing committees, and advisory groups to determine (1) how many exist, (2) "their functions, organization and operation," and (3) "how many could be terminated or reduced in scope without significant adverse program impact?"

We have sent the attached form to the Department of Finance in compliance with a directive from the Department. You should find the material included in this form to be of interest.

Respectfully submitted,

John H. DeMouilly
Executive Secretary
