## First Supplement to Memorandum 2008-33

**2008 Legislative Program: AB 2479 (Hancock)**

---

As amended on June 30, 2008, Assembly Bill 2479 (Hancock) would have required the Commission to prepare a study relating to the remedies available when property boundaries are disturbed by gradual earth movement.

That bill was amended again on August 22, 2008. The language assigning the study to the Commission was removed. The bill no longer has any bearing on the Commission's work.

Respectfully submitted,

Brian Hebert  
Executive Secretary
