Memorandum No. 2

Subject: Concurrent resolutions involving
study assignments for the Law
Revision Commission.

In reading the measures introduced in January which we have received thus far, we have found included among them several concurrent resolutions and a bill which would give substantial assignments to the Law Revision Commission. Copies of these measures are attached.

It would seem to be in order to discuss these measures at the March meeting with a view to determining what action, if any, should be taken regarding them when the Legislature reconvenes.

Respectfully submitted,

John R. McDonough, Jr.
Executive Secretary
