

16
March 20-21, 1958

Memorandum No. 5

Subject: Survival of Tort Actions

Topic No. 15 in the Commission's 1956 Report was "A study to determine whether the law in respect of survivability of tort actions should be revised."

Attached hereto is a research study on this subject prepared by Mr. Leo V. Killion, a member of the California Bar, under contract with the Commission.

The subject does not seem to be sufficiently complicate to warrant consideration by a committee before it is considered by the full Commission. I recommend, therefore, that we take it up at the March meeting.

Respectfully submitted,

John R. McDonough, Jr.
Executive Secretary
