Memorandum No. 3-B

Subject: Status of Current Projects

This memorandum sets out the status of each of the current projects. It also indicates a tentative year in which the completed project will be presented for legislative enactment. Using this memorandum the Commission can assign tentative "target" dates for the various studies on its current agenda.

Information in this memorandum should be helpful in determining how many, if any, new projects should be authorized by the 1960 Legislature.

Respectfully submitted,

John H. DeMouilly
Executive Secretary
