Memorandum No. 2

Subject: Proposed Budget for 1960-61 Fiscal Year.

Attached is budget material for the 1960-61 fiscal year. The first sheet of the attached material presents the budget information in summary form. Detailed information is presented for each budget item on the following pages.

The figures in most categories are substantially the same as those for the current fiscal year. The following general comments may be helpful:

(1) Salary figures for present personnel reflect regular increases for those positions. No new positions are requested. Per diem for commission members is increased based on actual experience at recent meetings.

(2) The item for printing is less than the amount budgeted for 1959-60, but more than the estimated actual expenditures for printing in 1959-60. This reflects the deferring of some printing covered by the budget for 1959-60 to 1960-61 and the following fiscal years.

(3) The item for traveling-in-state is substantially increased. This increase is based on actual experience and on a projection of attendance at recent meetings.

(4) The item for long distance telephone calls is increased to \$450 in view of the fact that this expense, which tends to run higher during a general session year, was \$453 in 1956-57 and \$416 in 1958-59.

(5) The figure for research and contractual services includes an item of \$5,000 to cover assignments by the 1960 session. The budgeted amount for 1960-61 research and contractual services will cover all pending studies assigned to the Commission.

(6) The \$250 item for office equipment covers some of the following items: two four-drawer file cabinets, two two-drawer file cabinets, stool for use with mimeograph machine and a table (to the extent that these can be purchased from the \$250 allowed for equipment in the proposed budget).

Respectfully submitted,

John H. DeMouilly  
Executive Secretary

## GENERAL ANALYSIS

### Objectives

This commission examines the law to discover defects and recommends needed changes, receives proposed changes in law recommended by other bodies, recommends changes in the law necessary to modify or eliminate obsolete or unconstitutional provisions and reports proposed studies to the Legislature.

### Program and Performance

The workload of this commission is determined primarily by the number of studies assigned to it by the Legislature. The Commission will not complete its presently assigned topics for study prior to the end of the 1960-61 Fiscal Year and, consequently, will not request the assignment of additional topics by the Legislature at its 1960 session. During the 1960-61 Fiscal Year, the Commission will primarily concentrate its efforts on three major projects, two of which will be completed during 1960-61.

Because studies of the Commission are scheduled for completion just prior to the general session of the Legislature, workload statistics presented below are discussed in terms of fiscal periods of two years.

	<u>Actual</u> <u>1955-1957</u>	<u>Actual</u> <u>1957-59</u>	<u>Estimated</u> <u>1959-1961</u>
Studies Completed	13	12	12

While the number of completed studies will probably not increase during 1959-61, a substantially greater volume of work will be completed during 1959-61 because of the complexity of the projects scheduled for completion during that period. In addition, substantial progress will be made on a major study scheduled for completion in 1961-63.

Printing Index for bound volume (500 copies) - \$20.00 per printed page.

Printing Reports - 2,500 copies - \$13.00 per printed page.

Binding Printed Report (2,000 copies) - \$75.00 per report.

Where copy is now available in typewritten form, this formula (supplied by the State Printer) was used to convert typewritten pages to printed pages:  
 3 double-spaced typewritten pages (29 lines per page) = 2 printed pages  
 (6 inches by 9 inches).

# TRAVEL, IN-STATE

Actual 1958-59	Budgeted 1959-60	Estimated 1959-60	Proposed 1960-61
\$4,998	\$4,500	\$7,190	\$7,630

Note: Based on the actual experience for the months of April, May, June, July and August 1959, the estimated expense for meals and lodging for the seven Commissioners for the fiscal year 1959-60 is \$3,000. This is computed as follows:

$$\begin{array}{ccccccc} 25 & & x & & 6.4 & & x & & \$19 & & = & & \$3,040 \\ \text{(number of meeting} & & & & \text{(average} & & & & \text{(allowance)} & & & & \\ \text{days)} & & & & \text{attendance)} & & & & & & & & \end{array}$$

The estimate for the fiscal year 1960-61 is also \$3,000.

The estimated expense of meals, lodging and incidental expenses for the three staff members for the fiscal year 1960-61 (based on the assumption that approximately one-half of the meetings of the Commission will be held in southern California) is \$780. For the fiscal year 1959-60, this expense is estimated at \$600 on the assumption that only about three or four meetings will be held in southern California during the 1959-60 fiscal year.

In addition to the expense of meals, lodging and incidental expenses of the staff in attendance upon meetings of the Commission, these expenses in connection with other activities (such as meetings with state bar committees, with Commission consultants and in attendance upon the legislative session) was about \$330 for the fiscal year 1958-59 (31 days) and is estimated at \$350 for the fiscal year 1960-61. For the fiscal year 1959-60, this item is estimated at \$330.

The actual expense of "transportation and other expense" and "automobile mileage" during the 1958-59 fiscal year was \$2,872. Because of the 12.5 percent estimated increase in expense of auto mileage over the cost per mile

during the 1958-59 fiscal year and because of the larger staff, greater attendance by Commission members at meetings, larger volume of Commission work and attendance by the staff upon the legislative session, it is estimated that during the 1960-61 fiscal year the total for these items will be \$3,500. For the 1959-60 fiscal year, these items are estimated at \$2,800, because attendance of staff upon the legislative session will not be required during that fiscal year.

To the estimated amount for the fiscal year 1959-60, there must be added a non-recurring item estimated at \$460 to cover moving expenses (\$300) and per diem (\$160) in connection with the employment of the new assistant secretary

Exchange Charges	\$268	\$265	\$287	\$300
Long Distance Tolls	416	300	300	450

Note: The actual exchange charges for the fiscal year 1959-60, based on extension of the monthly exchange charge now in effect, will amount to \$287.

Past experience shows a continuing increase in the exchange charge as follows:

1957-58 (Actual)	1958-59 (Actual)	1959-60 (Actual-extended)
\$ 232	\$ 268	\$ 287

For this reason, \$300 is the estimated amount for this expense during the 1960-61 fiscal year.

The past experience shows a substantially greater long distance tolls expense during the fiscal year (1958-59) of the general legislative session.

1956-57 (Actual)	1957-58 (Actual)	1958-59 (Actual)	1959-60 (budgeted)
\$453	\$ 252	\$ 416	\$ 300

This item is substantially greater during the year of the general legislative session because of the necessity of immediate action on the part of the Commission with reference to its pending legislation. Very often this action must be taken between meetings by telephone. Based on the experience during the 1958-59 fiscal year (last year in which a general legislative session was held), the amount of \$450 has been estimated as the amount of this expense during the 1960-61 fiscal year (a year in which the general legislative session will be held). The expense during the 1961 session will be greater than the expense during the 1959 session because it is anticipated that the Commission will have a larger and more complex legislative program at the 1961 session.

POSTAGE	Actual 1958-59	Budgeted 1959-60	Estimated 1959-60	Proposed 1960-61
	\$731	\$500	\$750	\$900

Note: The actual expense for postage during the 1958-59 fiscal year was \$731. It is anticipated that this expense will be somewhat higher during the 1960-61 fiscal year because during that fiscal year the Commission will be completing several substantial projects of wide-spread interest.
