

2/15/67

Memorandum 67-7

Subject: Senate Bill No. 248 (Agricultural Code Revisions)

We have received no comments on this bill. I am pleased that the bill was referred to the Senate Committee on Judiciary but I assume that it also will be considered by the Senate Committee on Agriculture.

The Senate Committee on Agriculture has suggested that we have the bill redrafted to make the same revisions in the new Agricultural Code (Senate Bill No. 1) and we have requested the Legislative Counsel to prepare an amendment to do so. I will check into this matter further the next time I am in Sacramento. George Murphy and I have discussed the best way to handle the coordination of our proposal with the new Agricultural Code, but it is too early to determine the proper course of action. I assume that we will add a series of amendments and repeals to the new Agricultural Code to our bill, such amendments and repeals to take effect if the new Agricultural Code is enacted. The amendment to our bill that is being drafted by the Legislative Counsel will be in this form.

Respectfully submitted,

John H. DeMouilly
Executive Secretary
