## Second Supplement to Memorandum 67-44

Subject: Candidates for position as Assistant Executive Secretary (Mr. Charles L. Swezey)

Mr. Swezey ranks second on the eligible list for this position.
Attached is his statement of his educational background and work experience and several samples of his writing.

Respectfully submitted,

John H. DeMoully Executive Secretary

RESUME OF EDUCATION AND PROFESSIONAL EXPERIENCE of CHARLES LAWRENCE SWEZEY

RESUME OF EDUCATION AND PROFESSIONAL EXPERIENCE of
CHARLIES LAWRGNCE SWEZEY

EDUCATION:
I received my A.B. degree in 1943 from Cornell University, where I was a member of Phi Beta Kappa, and my L.L.B. in 1948 from Stanford, where I was elected to the Order of the Coif.

LAW CLERKSHIP:
From shortly after my graduation from Stanford until May of 1950, I served as research asistant and research attorney on the staff of Justice Spence of the Supreme Court of California. While there I prepared a conference memorandum in every seventh case filed with the court. I also drafted concurring and dissenting opinions and did other research as assigned.

The conference "memos" were succinct ( 2 to 6 page) deacriptions of the procedure, facts, law and arguments in each case. They were deaigned to quickly provide the justices with sufficient information about each petition for hearing or original writ to enable them to decide whether the petition should be granted. An example of a conference memorandum is attached as Appendix $A$.

TEACHING EXPERIENCE:
During the period I was on the staff of Justice Spence, I also taught the course in Trusts at San Francisco Law School.

CIVIL PRACTICE:
From May, 1950, until December, 1953, less a 17 month military leave, I was in general civil practice with Mitchell, Silberberg and Knupp in Los Angeles. The standards of this firm were extremely high. I drafted pleadings, motion picture contractis, business agreements, wills and real estate documents. I also wrote briefs, tried cases, probated estates, supervised corporate transactions and participated in nearly every type of civil matter except divorce litigation.

ADMINISTRATIVE LAW:
From December, 1953, until July, 1954, I was prosecuting attorney for the Division of Real Fstate. As Deputy Real Estate Commissioner, I prepared statements of charges and statements of issues in accordance with the Administrative Procedure Act and tried cases involving license applications and violations of the Real Estate Law.

The following year was spent as a referee for the Unemployment Insurance Appeals Eoard. In this position I heard and decided an average of about 20 cases each week. A sample decision is attached as Appendix B. I also worked two months as an opinion writer for the Board.

INSURANCE AND EXECUTIVE EXPERIENCE:
From July, 1955 to July, 1957, I was employed as senior counsel for the State Compensation Insurance Fund which is the largest workmen's compensation insurance carrier in California. As senior counsel, I supervised the Northern California and home office legal staffs in the performance of all the legal functions involved in the operation of an insurance organization of this nature.

QUASI-JUDICIAL EXPERIENCE:
Since 1957, I have been a referee for the Industrial Accident Commission which is now known as the Workmen's Compensation Appeals Board. In this position I hear and decide approximately 50 compensation cases each month. As a part of the deoision making process the referea is required to sumparize the evidence, write an opinion on decision and prepare findings. The findings, awards and orders are essentially the same as the findings of fact, judgments and orders issued by the Superior Court except that they are drafted by the referee rather than counsel. An exampie of an opinion on decision is appended. (Appendix C) A referee's decision is "appealed" by means ot a petition for reconsideration by the Workmen's Compenaation Appeals Eoard itself. Whenever such a petition is filed in one of my aases, I prepare a report of referee on reconaideration. An example or such a report is attached as Appendix D.

As an additional duty, I am in charge of the San Jose office and supervise a staff of 21 which includes clerks, legal stenographers, court reporters, lawyers and a doctor.

LEGAL WRITIAN FOR PUBLICATION:
I was one of the authors of California Workmen's Compensation Practice published by the University of California. A reprint of my chapter is being forwarded separately. My article on "Disease as Industrial Injury in California" is appearing in the current edition of the Santa Clara Lawyer published by the University of Santa Clara. A copy of the final draft (without footnotes) is attached as Appendix E.

COMMITTEE OF BAR EXAMINERS:
For the past 13 years I have served as a reader in Real Property, Evidence and Torts for the Comittee of Bar Examiners. At a part of the preparation for reading each question, the reader prepares a legal analysis of the question. I have also drafted several questions and analyses of the legal principles and theories involved in each.

# APPENDIX A 

CEORGE V. BEKTAS VAN A STORAGE CO.
2 Civ. No. 16182

Petition for nearing after decksion by tho D.C.A. Secomd District, Division Three (opinion by shina, Aoting P.J.), sioniming fudgnent for plantifis in an action against varonouseman for damages for destruction of goode by ilire. (Superior Court, Los Angeles County, Fiarola B. Jeifery, Judge:

Sometime in October of 2942 : plaintipf wifo wired deiendant from Oregon, whare her husbend was proparing ior overseas duty, mire immediatoly is you will storo my fipe rooms of valuable furniture." An affimetivo reply was recoived and the goods werc shippea to derendant at Los Angeles by the Nary. About a month aiter receiving the geods derendent mailod a non-negotiable warebouse receipt to the plaintife wien along with a "Balmon idontipieation cerd" which plaintifis signed and returned to derondant. Both the recelpt and the card purported to:lindt defondant's liability to $\$_{6} 10$ per 100 lbs. The shipment woighed approxinately 5,000 lbs .

The goods were destroyed by fire on May 16,1945 , and this 'litigation roilowed. At the trial two merabers of the Los Angeles arson aquad testified over objection that the fire was caused by negligent mokingo nhis opiaion wse based in part upon hearsay. There was much other evidence both ways on the question or
negligence, mostly in megard to the condition of the building and ine prevention measures. The trial court founa that piaintifir had not consented to the limitation on liability and gave thein judgment in the emolant of $3,126.15$. mhe jecovery wes based on conversion, negligence, and breach of contract to use due care. Defendant then appealed to the D.C.A. Mhat court preimed the judgment stating that while no cause ci action for conversion was made out, there was ample fn the reoord to support tho judgment on the theory of broach of oontract. The opinion pointed out that under suoh thoory the buraon ap proor of lack of nealigence was on the warehouseran and that defendant had falled. to sustain that burden. The D.C.A. decline to decide whether or not pleintiffs would have been entitled to recovery on the thoory of negligence.

It was further hela by the D.C.A: that the admission of the opinion based on heaxsey was not prejudicial because oompatant ovidence on the subject was later introduoed curing such derecta, and that the limitation on liability was not biading upon the plaintifis bocause jt wes not rifainly and ireely entered into."

Defendent now potitions this court ror a hearing. Its contontions, all of which were made to the D.Coto, are: (1) that the burden of proof of due oare was improperiy placed upon it; (2) thet the admassion of expert opinion based on hearsay was prejudicial; (3) thet judgment for more than the declared value of goods contained in a storage contract is improper。
(1) If a werohoussman faile to deilvar goods the burden
is upon hin to establish the oxistenoe or a lawful excuse for such refuaal. (Jaiform Wise. Rocelpts Aot; soc. \& [3 Deoring Geall Lews: Act 9059].) It is not cieer from this provision whether the burden of proot on the issue of negligence is on the dopositor or upon the wershousentan. pol. 3 of U.d.A. cites California oeses for both propositions. Apparently the lew in this gtate is that whero plantinf's theory is conversion the ourcen is upon the baileo to show his lack of negligence (wilson V. Grown Transfer etc. Co., 201 Cel. 701. 706), but where plaintipi bailor gecks to recover upon the theory of negligence the burden of proving the beilee ${ }^{\text {es }}$ nogligence is upon him (Wilaon v. So. Jac, R.R. CO., 62 Gel. 164, 168; 25 Cal. Jur. 964. . There seam to be no ceses in Celipornia as to where the burden is if the plaintipf's theory is broach of contract to use due case. It would seon that the plaintirf would have the aifirmative of the fissue of negifenoe hore just as much as he would in the cass where he seoks to recover in tort for defondant's failure to use due care, but the D.C.A. accepted the rationale of cases In other states which put the whole burden on the warehousemen on the basis of goc. 8 of the wise. Receipte act and upon some theory similar to zes jpga logutur. (Pettion, Opinion, pp. 7.8.) Otier states teke an oquelly terable view: That the warehouseman satisifes the burden of sec. of whon he seys that the goods were destroyod by fire and that the depositor inust thon ghow that the warohouseman was at Pault. (3 U.T.A. 39.)
[The findinge (0. Tr. P. 60) anc the D.C.A. Opinion apeak or it being a coatract to "keop sarely" but the ovidence will not support such a pinding. If derenaant had contractod to keep saisly, its liability would havo boon absoluto and tho isire would have been no gricuse.]
(2) Potitioneris second point is apperently without merit. Phere is no iron-clad ride that an ompart cannot give an opinion basea in part upon hearady. (Kamond Lumber Company v. County of Los Argeles, 104 Cal. App. 235, 248.) But even if this opinion was inamissible for that reason, it was not projudicial beeane, as the D.C.A. points out, the bulk of the hearsey upon which the opinion was basod came in later as direct testimony. (Soo woisca V. Painiess Parker. 104 Cal. App. 770. 778.) Furchermore, this case was tried without juxy sind in such ceses it is presumed thet the judge reliad upon the corapotent evidence where it was sufilcient to support the Pinaings. (roy v. Salisoury, 21 Cal. 2d 176. 187.)
(3) Fhe taking oi a warehouse rocoipt, lise the taking of t bill or lading, binde the balior as an acceptor of the temas
 citing Taussig 7 . Bode 134 Cal. 260.) The purported limit on liability in the warehouse receipt here in question can hardly be saiá to be illogiblo. (Seg Cl. Tro, p. 34.) Teussig v. Bode and other cases in geoord in California can, howovers be dise tinguishod fron the instant case, as thooe casea apparently uld not involve dealing by mail. This is perhapa $\varepsilon$ thin distinotion.

The instant oasa seens stronger then that enviseged by Professor Williston, as plaintifis acknowleaged recoint of the warchouse receipt by aigning and returning the salan card (Rep. Tr., pp. 157-200.)

The warehousoman madoubtedy does ocoupy a position of dominance in these cases and the courts hevie often recognized this. They have said that the balle cannot so limit his liability wara he has actual knomledge that the thing bafled is of greater value. (Engand vo Lyon Fireproor storage Co. 94 Cal . App. 562, 573.) Courts of sidter states have aaid that the liaitation on liadility must be brought home to the ballor: (3 WuJ.A. 1947 Pocket Part, 140) But the derendants in this case do not appear to have takon sny undue advantage of this position of goninance.

The effect or the D.C.A. docision is to meke the warem housoman firtually an fasurer for an unlimitod amount whonspar the bailor daela mith hik by mail. This appoars to be out of line with the policy of this state which allows the bailoe to limit his
 100; Warohouso Receipts Act, supros sec. 3; cis. Clv. Codo, soo. 1840), and which is that a ballee will oniy ba liable por pailure to use due care. (whse, Recetpts Aot, shipra, sec. 21.)

Page V. Ace Ton end Storage GO., Ef A.C.A. 366, decided by the Fourth District two veoks after the principal cases apparently cannot be reconciled except on the personsi dealing basie.

Granting recomended.
SPENCE, J.

Based on the record before him, the Referee's statement of fact, reason for decision and decision are as follows:

SMTEIENT OFPMCT
Petitioner, who is engaged in logging, has protested an assessment levied by the Department of Imployment under Section 1127 of the Unemployment Insurance Code with respect to the period from October I, 1950 tirough September 30,1953 in the amount of $\$ 943.76$ contributions, $\$ 72.53$ penalty, plus interest as provided by law. The. $\because$ assessment is based upon sums paid to fallers and buckers, employed by petitioner; as equipment rental which the Department asserts are in fact wages. The penalty covers only the period commencing July 1, 1952.

During the year 1950 petitioner allocated 20 percent of the individual earnings of the fallers and buckers (also called "choppers") to equipment rental. During the first calendar quarter of 1951 rental payments of $\$ 2.50$ per thousand board feet were made. From April 1, 1951, through June 30, 1952 equipment rental in the amount of $\$ 0.75$ per thousand board feet was paid. Thereafter, $\$ 2.50$ per hour vas allocated to. "Wages" and the remainder of the remuneration received by the choppers was'considered as equipment rental; the basic rate for computation of such compensation was $\$ 5.00$ : per thousand board feet of Redwood (including peeling off bark) and $\$ 3.50$ per thousand board feet of fir (requires no peeling). Petitioner continued paying contributions on this basis after being advised by the Department on JuIy 25, 1952 that the Department would disallow saw rental in excess of $20 \%$ gross remuneration for falling and bucking. In making the assessment here involved the Department considered as taxable wages that portion of equipment rental which exceeded $\$ 0.50$ per.
thousand board feet for the period prior to July 1, 1952, and that portion which exceeded 20 percent of the total remuneration for chopping on and after that date. In addition, the Department treated the entire compensation during the first three quarters of 1953 as wages on the ground that petitioner's records wrere inadequate to show what amounts represented expenses and remuneration for services respectively.

Petitioner contends: (1) that the amounts paid by it for equipment rental were not in repayment of expenses incurred by his employees but were rental payments unrelated to the çontract of hire; (2) that to treat any portion of the equipment rental payments as "wages" constitutes an impaiment of contract; (3) that the allowances arived at by the Department are arbitrary and unreasonable; and (4). that, petitioneris records were adequate to determine for the year 1953 what sums were rental and wages respectively.

The cutting and preparation for processing of timber in petitioner ${ }^{\prime}$ s operation was performed by fallers and buckers (or choppers) who furnished their own chain saws, parts, gasoline, oil, axes, wedges and other equipment and supplies. Each also generally had a truck or work car used to transport personnel and equipment to and from the woods.

During, the latter part of the period involved in the assessment there was in effect between petitioner and Lumber and Sawnill "orkers Local 2610, which represented his employees, an agreement providing, among other things;

|  | "Two Dollars and Fifty Cents ( $\$ 2.50$ ) per hour. . . Will be paid to all (fallers, buckers and peelers employed by petitioner). |
| :---: | :---: |
|  | "In order to provide for payment of power equipment then it is furnished by the employee rather than the employer, the following rates will be paid for logs prepared: |
|  | $\$ 5.00$ per M. . .Redwood - Fallen, Bucked and Peeled 3.50 per $M_{0}$. Redwood - Fallen and Bucked <br> 3.50 per M. . Douglas Fir - Fallen and Bucked <br> 1.50 per $M_{4}$. |
|  | ". . after the Two Dollars and Fifty Cents ( $\$ 2.50$ ) per hour has been deducted from the above Log Payment the remainder shall be considered as a fair remuneration . as Equipment RentaI"。 |

Petitioner also paid his fallers and buckers $18 \phi$ per square foot for an operation known as "waste cutting".

There is very little evidence in the record as to what factors influenced the parties in negotiating the above-quoted provision of the union contract but it does appear that almost without exception the choppers prefer to provide their own equipment as it is more profitable for an experienced chopper to be paid by the board foot than by the hour.

A typical faller and bucker enployed by petitioner, for example, cuts an average of 15,000 feet of timber per day and wriks 200 days per year. Thus, Without reference to any remuneration for peeling, he would gross $\$ 10,500$ providing his own equipment but only $\$ 4,000$ on an hourly basis. The expenses of acquiring and maintaining the equipment, of course, are not negligible. Eis initial outlay for saws
and equipment is approximately $\$ 1100.00$, plus whatever he expends for' a truck or work car. During the period covered by the assessment his annual expenses, including replacenent of saws and maintenarse of his truck, would approximate in120.00. The truck or work car is essential to a successful falling and bucking operation but only about one fifth of the use thereof could be considered as a necessary business expense, the remaining four-fifths being exclusively for "going and coming" or commuting. 4 typical chopper would pay $\$ 2100$ for such a car and amortize it over a 3 year period, elthough some choppers invosted as little as $\$ 390$ in their vehicles.

Furing the year 2953, petitioner kept semimonthly pay roll sheets which indicated whether the employee was a peeler or chopper; the number of hours he worked; number of board feet falled and bucked or peeled, as the case may be; the number of square feet rasie cut; and rate for cutting out unussble wood; the total payment; the hourly "wage"; and the amount ostensibly paid as "equipment rental" . There was no summary of this data except insofar as it appeared on the petitioner's quarteriy r. unempioyment insurance tax returns.

RFASON_OR DECISION
At all times herein involved, Section 11 of the Unemployment Insurance Lict provided,
insofar as is material to this decision:
"(a) Except as hereinafter in this section provided the term 'rages' means:
"(1) All remuneration payable for personal services whether by private agreement or consent or by force of statute including conmissions and bonuses, and the cash value of all remuneration payable in any medium other than cash."
"(b) The term 'wrages: does not include the actual amount of any required or necessary business exponse incurred by an individual in connection with his employment, or, in lieu of the actual amount of such expenses, the reasonably estimated amount allowed therefor in. accordance with the authorized regulations as may be prescribed."

Section 64 of Title 22 of the California idministrative Code provided in part as follows:
"(a) 'Taxable wages' does not include the actual amount of traveling, automobile and other necessary or required business expenses incurred by an employee in connection rith his employment and the reasonable rental value of equipment or supplies furnished by an employee to his employer; provided, however, that the employee shall meintain such reasonable records as will enable him to account to his employer for the amount of the rental or expenses actually incurred by him and that the employer shall keep such reasonable records as will show the portions of the total amount which represent respectively expenses and remuneration for services.
"(b) The accounting between the employee and his employer shall be accomplished for periocs not greater than a calendar quarter and not less often than once each quarter so the employer may have knorledge of that portion of the payment which is remuneration for personal services for the purpose of properly preparing the quarterly contribution and earnings returns.
"(c) Nothing herein shall preclude a reasonable flat daily, weekly
or monthly allowance to cover traveling and sinilar expenses actually

Wherever an item is questioned, the burden is entirely upon the employer to establish the correctness of the expenses to the satisfaction of the Department. The Departm ment may disallow all or any portion of the amount claimed unless the employer can establish that the amount clained represents only actual reimbursement for usual and necessary expenses incurred in the course of the worker's employment. The burden of proof was upon the petitioner to establish that the part of the equipment rental dis2llowed represented sonething other than wrages (Appeals Board Tax Decisions Nos, 1923 and 2053).

At first blush, Section 64(a) wrould appear to exclude from wages "the reasonable rental value of equipment or supplies furnished by the employee", but reference to Section 11(b) of the Act, under the authority of which Section 64 of Title 22 was promulgated, indicates that it was concerned only with "necessary business expense incurred by an individual in connection with his employment" or a "reasonably estim ated amount allowed therefor". Thus the "reasonable rental value" referred to in Section 64 is an estimated allowance arrived at in accordance therewith. Under Sections 11 (b) and 64, only the amount of required expenses actually incurred by an employee in connection with his employment were excluded from taxable wages (Appeals Board Tax Decision No, 1923).

Petitioner, however, contends that Section 64 of Title 22 was inapplicable to the facts hoir before the Referee and that the entire amount of the equipment rental was not subject to contributions since it was not "remuneration for gersonal services" but, as its name implies, rental for equipment. While it is true that a benefit conferred upon an employee is not "wages" unless it was intended as remuneration under a contract of hire (Appeals Board Tax Decisions Nos. 1239 and 1040); petitioner has not established that the somcalled equipment rental was not wages. The supplying of the equipment by the choppers cannot be isolated from their performance of services; petitioner bargained primarily for services and the equipment was incidentally supm plied with the amount of rental paid bearing little relationship to the value of the equipment. Thus a novice or inefficient chopper who cut 5,000 board feet of fir in an eight-hour day with new equipment would receive no rental for his equipment, while an experienced chopper using second-hand, borroved, or even rented equipment and cutting 20,000 board feet would receive $\$ 50$ in "equipment rental". The saws and other toals, moreover, would be valueless to petitioner without the services of their owmers, and petitioner would have been less than astute to annually pay $\$ 6,500$ rental
for equipment which he could purchase initially for $\$ 1100$ and maintain (including replacement) for another $\$ 1100$ per year. Under the circumstances, the conclusion is inescapable that at least a substantial portion of the equipment rental was wages within the meaming of the dict.

Turning now to the contention that the contract between the union and petitioner is binding upon the Department, it should be noted that a similar argument was rejected by the California Unemployment Insurance ippeals Board on a substantially identical set of facts in Appeals Board Tar Decision No. I82l. It is well settled, moreover, that a contract specifying a relationship to be one thing is not controlling there the extrinsic circumstances show it to be another (ippeals Board Tax Decision No. 2068). is was recently held with respect to a collective bargaining contract, "Hatever may have been the effecty of said provision of the contract as between the parties thereto, it is our opinion that such provision is not binding upon the Department or this Appeals Board as to the status or effect of (severance pay) under the Unemployment Insurance Code," (Appeals Board Benefit Decision No. 6154) The constitutional issue raised by petitioner was put to rest by the United States Supreme Court in Eest Coast Hotel Company V. Parrish (1937), 300 U.S. 379, 57 Sup.Ct. 578, and Home Building and Loan ASS $\mathrm{n}_{-} \mathrm{V}_{0}$ Blaisdell (1934), $290 \mathrm{U} . \mathrm{S}_{3} 398$, 54 Sup.Ct. 231. It should be observed, moreover, that neither the Act, the regulations, nor the assessment require any party. to the contract to do anything inconsistent therewith nor in any way restrict their rights to enter into other contracts for compensation. They simply determine what portion of payments made thereunder are subject to unemployment insurance contributions in accordance with a standard of uniform application.

In urging that the equipment rental allowences arrived at by the Department were arbitrary and unreasonable; petitioner's emphasis was upon attacking the manner in which the Department reached its conclusion rather than upon the validity of the conclusion. Even if it appeared that the Department had cast lots to ascertain its allowable equipment rental, petitioner rould not, in the opinion of the Referee, have sustained his burden unless he aiso established that the usial and necessary expenses incurred by the fallers and bucker's in the usual course of their employnent exceeded the flat rate allowed by the Department. The evidence indicates that a typical chopper enployed by petitioner annually cuts 3,000,000 feet of timber and expendss" $\$ 1120.00$ for the maintenance and operation of his equipment and work car and replacement of equipment. \$110, which would represent the annual interest expense at the maximum legal rate of interest on the claimant's initial investment in equipment other than the works car, and 3 Illo for amortization of that portion of the claimant's work car used exclusively in the course of the chopper's employment might also be properly considered as usual and necessary expenses, if expended. Thus, the chopper's total annual required business expenses would not exceed $\$ 1370$ or less than $4,6 \phi$ per 1,000 board feet. Prior to July 1, 1952, the Department allowed 504 per thousand. board feet and thereafter allowred $20 \%$ of the total remuneration for chopping. While it would appear that a reasonable rental allowance should be dopendent upon the amount of timber cut and not upon the amount of remuneration, in the case of the petitioner"s fallers and buckers, the $20 \%$ allowance as applied by the department anounted to a flat $70 \phi$ per thousand. Since both amounts exceeded the actual amount of the necessary or required business expenses per 1,000 board feet cut incurred by potitioner's employees, the Referee concludes, as did the Appeals Board in Iax Decisions Hos. 1590, 1664, 1824, and 1923, that the Department's determination was reasonable.

Petitifoner's final contention appears to have merit. It was ascertainable from petitioner's records the amount of redrood each chopper chopped and peeled, the amount of reavood and fir merely fallen and bucked, the total wages paid, and the amount thereof which petitioner allocated to "equipment rental" and to "wages" as.
those terms were used in the union contract. Respondent, in its brief, conceded that an expense allovance could have been computed from these records but that the computation rrould have required more time than the Department considered appropriate for the audit. The feferee cannot agree that this constituted good cause for the disallowance of "equipment rental" for the period involved. Since the Department determined that petitioner was entitied to consider $70 \phi$ of each $\$ 3.50$ paid to an exployee for falling and bucking a thousand feet of timber as equipment expense, petitioner!'s records were adequate to reflect the amount of remuneration paid each employee which is properly allocable to the reasonably estimated amount allowed for equipment expense.

The foregoing discussion treats the principal contentions made by petitioner in this case. There are, hovever, several matters which require decision in order to properly dispose of all of the issues involved in the case. Since peelers use only a peeling bar, the expenses of acquisition and maintenance of which are relatively negligible, the entire remuneration paid for peeling was wages. The waste cutting done by the fallers and buckers being incidental to the chopping of the timber and the rental allowance determined by the lepartment as proper, having covered the full amount of the employees' equipment expense, no additional equipment expense vas allowable for waste cutting in the absence of evidence showing that any additional expense was actually incurred as a result of such waste cutting.

Section 1127 of the Code provides, as did its predecessor, Section 45.5 (b) of the lict, that if a deficiency is due to neglifence or intentional disregard, a penalty of ten percent of the amount of the deficiency shall be added to the assessment. The preponderance of the evidence indicates that although the Department advised petitionerts accountant on July 19, 1952, that the Department would not allov equipment rental in excess of $20 \%$ of the gross remuncration paid fallers and buckers, petitioner continued to report equipment expense in excess of that anount. This, in the opinion of the leferee, constituted negligence, if not intentional disregard, of the Act and rogulations promulgated thereunder (Appeals Board Tax Decisions Nos. 1923 and 2030). Petitioner could have protected his rights by paying the additional sums and filing a claim for refund.

DECISION
The petition is granted with respect to that portion of the assessment for the year 1953 which was based upon the Department's conclusion that it could not be ascertained from petitioner's records what portion of employees' gross remuneration was paid for falling and bucking services, and is denied in all other respects. The Depertm ment shall recompute the contributions due for the first three quarters of 1953, allowing petitioner"not less than $46 \neq$ per thousand board feet of timber fallen and bucked as reasonable and necessary business expense incurred by the individual or individuals falling and bucking such timber.

Pated at San Francisco, California, January 25, 1955.

## REPORT OF REFEREE ON

## PETITION FOR RECONSIDERATION

Defendant insurance carrier has filed a timely Petition for Reconsideration from Findings and Award in the case of a 39 year-old laborer who injured his eye when a nail he was hammering flew up and struck him.

## Contention:

Petitioner contends that the Referee erred in finding that applicant was a general employee of Balcon's Department Store which it insured.

## The Facts:

Applicant, who had previously done odd jobs on a casual basis for the Balcon's, was hired by Balcon's

Department Store on October 1, 1963 as a regular part-time employee.

His duties required him to clean up the store, break up boxes and do other work which was too heavy for Mrs. Balcon. He reported to the store every afternoon when he completed his regular work for Pacific Gas \& Electric Company.

Balcon's Department Store is a corporation which, with exception of one share, was wholly owned by Vern and Nell Balcon. When applicant was hired, the Balcons were building a house. Mr. Balcon told applicant that if he wanted additional work, he could come to the house when he finished at the store. Applicant did this several evenings, and it was in the course of working at the house that he injured his eye.

Applicant was paid on the payroll of Balcon's Department Store for the work he performed both at the store and at the house. Vern Balcon testified that in his mind there was no difference between the money in his pocket and the money at the store.

## The Law:

The insurer of a general employer is liable for the entire costs of compensation unless the special employer has the employee on his payroll. (55 Cai. Jur. 2d 68; Cal. Workmen's Compensation Practice, p. 68.)

## Discussion:

It is apparent from the facts summarized above that applicant was at the very least a general employee of petitioner's insured at the time of his injury.
.
Since he was on the corporation's payroll, petitioner : is liable for the entire cost of the compensation.
It should be noted, moreover, that there is convincing evidence that Vern Balcon had ordered a compensation policy covering the construction of the house from petitioner's agent well before the accident occurred. Petitioner, therefore, is probably estopped to deny coverage in any event.

## Recommendation:

Denial.
