

11/27/68

Memorandum 69-18

Subject: Name Plates

Commissioners Uhler and Yale have suggested that identification plates be purchased for the individual members of the Commission and staff. They suggest that the plate be one suitable for placing on the table in front of the person and that it contain his name and indicate whether he is a member of the Commission or the staff. The Chairman requested that I defer purchasing name plates until the Commission had an opportunity to discuss the matter.

Respectfully submitted,

John H. DeMouilly
Executive Secretary
