

## Memorandum 72-66

Subject: Study 36.30 - Condemnation Law and Procedure (Substitute  
Condemnation)

The staff proposes the addition of a new substitute condemnation provision for utility relocation purposes. This provision is generalized from numerous special district provisions. See Section 1240.330 and Comment, attached as Exhibit I. (We will need to renumber some sections to permit us to number the new section as Section 1240.330.)

Attached as Exhibit III is a draft bill to repeal 33 sections and amend 3 sections of special district laws that will be superseded by the new sections. These are not routine repealers and amendments--the Commission should examine each section since they do not all follow the same pattern. The staff recommends that the bill be approved for submission to the Legislature as a part of the eminent domain package.

In connection with the superseded provisions, it should be noted that about two-thirds give the Public Utilities Commission jurisdiction to resolve disputes involving the relocation of utility property under the substitute condemnation procedure. A comparison of the types that have P.U.C. jurisdiction with those that lack the jurisdiction reveals that, as a rule, the more recently enacted statutes provide for P.U.C. jurisdiction. The staff recommends that P.U.C. jurisdiction be retained and, to eliminate the pointless disparities among districts where one district is subject to such jurisdiction, other districts of the same type should also be subject to such jurisdiction. See Pub. Util. Code § 861 and Comment thereto, attached as Exhibit II. This would extend P.U.C. jurisdiction to include 5 county water agencies, 10 county flood control and water conservation districts, and 8 county flood control districts not presently included.

For a discussion of Public Utilities Commission jurisdiction over relocation problems in eminent domain generally, see Memorandum 72-64.

Respectfully submitted,

Nathaniel Sterling  
Legal Counsel

EXHIBIT I

EMINENT DOMAIN LAW § 1240.330

Staff recommendation November 1972

§ 1240.330. Property necessary to permit condemnor to relocate public use

1240.330. (a) Where necessary property is devoted to public use, any public entity authorized to exercise the power of eminent domain to acquire such property for a particular use may exercise the power of eminent domain to acquire for that use substitute property in its own name, relocate on such substitute property the public use to which necessary property is devoted, and thereafter convey the substitute property to the owner of the necessary property if all of the following are established:

(1) The public entity is required by court order or judgment in an eminent domain proceeding, or by agreement with the owner of the necessary property, to relocate the public use to which the necessary property is devoted and thereafter to convey the property upon which the public use has been relocated to the owner of the necessary property.

(2) The substitute property is necessary for compliance with the court order or judgment or agreement.

(3) The owner of the necessary property will devote the substitute property to the public use being displaced from the necessary property.

(b) Where property is sought to be acquired pursuant to this section, the resolution of necessity and the complaint filed pursuant to such resolution shall specifically refer to this section and shall include a statement that the property is necessary for the purpose

specified in this section. The determination in the resolution that the taking of the substitute property is necessary has the effect prescribed in Section 1240.150.

Comment. Section 1240.330 provides general authority for substitute condemnation where a public entity is required by a court order or judgment or by agreement to relocate a public use. It should be noted that condemnation of property devoted to public use may be accomplished only in certain circumstances and the relocation of improvements in an eminent domain proceeding may be ordered only upon express statutory authority. See, e.g., Section 1240.510 et seq. (compatible use); Pub. Util. Code § 7557; Orange County Water District Act, § 39 (Cal. Stats. 1933, Ch. 924); San Bernardino County Flood Control District Act, § 25 (Cal. Stats. 1939, Ch. 73); Ventura County Flood Control District Act, § 29 (Cal. Stats. 1944, 4th Ex. Sess., Ch. 44). Unlike Section 1240.320 (which applies where the owner of the necessary property is the one who will relocate the public use), Section 1240.330 applies where the public entity seeks to acquire substitute property in its own name so that it may itself relocate the public use and then convey the property as improved to the owner of the necessary property.

Section 1240.330 is derived from and supersedes numerous special provisions providing such authority to particular public entities. See, e.g., Alameda County Flood Control and Water Conservation District Act, § 28

(Cal. Stats. 1949, Ch. 1275); Alpine County Water Agency Act, § 19 (Cal. Stats. 1961, Ch. 1896); Amador County Water Agency Act, § 4.9 (Cal.
