Memorandum 75-32

Subject: Study 39.70 - Prejudgment Attachment (Prelevy Third-Party Claims Procedure)

Attached to this memorandum is another copy of the First Supplement to Memorandum 75-27 which was distributed for the April meeting but not considered. The staff thinks that the problems discussed in the First Supplement should be dealt with in connection with postlevy third-party claims (Sections 689, 689b) which are a part of the enforcement of judgments study. The amendments to the Attachment Law (attached to Memorandum 75-31) cannot be delayed until the complex procedures for prelevy third-party claims can be fully considered.

Respectfully submitted,

Stan G. Ulrich
