Memorandum 89-18

Subject: Meeting Schedule

The April meeting is scheduled for Los Angeles. The staff originally suggested in a memorandum concerning the meeting schedule for 1989 that Sacramento be the location for the April meeting. The approved Minutes of the October meeting indicate that the Commission changed the place of the April meeting to Los Angeles.

Commissioner Marzec informs us that his understanding is that the place of the April meeting was not changed. He understood the April meeting was still to be held in Sacramento, and has already initiated steps for a possible Commission function in the Governor's office at the April meeting. In light of this situation, the staff suggests that the Commission consider Sacramento as the location of the April meeting.

Respectfully submitted,

Nathaniel Sterling  
Assistant Executive Secretary
