Comments on Tentative Recommendation**

---

The report and tentative recommendation on *Attachment Where Claim Is Partially Secured — Report on 1990 Amendments* is part of the Debtor-Creditor Relations material distributed for comment after the September meeting. (A copy of the combined tentative recommendation was sent on October 5th.)

We have not received any comments on this material in response to distribution of the report and tentative recommendation. The staff believes that the issues were fully considered in the course of preparing the tentative recommendation, and potential commentators have already made their points.

The staff recommends that the Commission approve this recommendation for introduction in the 1995 legislative session.

Respectfully submitted,
