

Memorandum 2003-3

**Obsolete Reporting Requirements
(Comments on Tentative Recommendation)**

In November 2002, the Commission approved circulation of a tentative recommendation on *Obsolete Reporting Requirements*. The tentative recommendation proposes the deletion of apparently obsolete statutory provisions that require the preparation of a report. The tentative recommendation also asked that commentators identify related or similar provisions that should also be deleted as obsolete.

In addition to our usual methods of circulating a tentative recommendation for public comment, we contacted each agency that was identified as responsible for preparation of the reports at issue. Most of the agency responses were by electronic mail and are relatively informal in character. Agency responses are on file with the staff, but have not been attached to this memorandum.

A draft recommendation is attached to this memorandum. After considering the issues discussed below, the Commission should decide whether to approve the draft recommendation as its final recommendation, with or without changes.

GENERAL RESPONSE

Of the 90 agencies contacted, 20 have responded. For the most part, responding agencies supported the proposed changes affecting their areas of responsibility. Changes that have been affirmatively approved (and any technical conforming revisions made necessary by those changes) are marked in the attached draft with a "bullet" symbol (i.e., "•").

Comments objecting to a proposed change or proposing additional deletions are discussed below.

We did not receive comments from anyone other than the contacted agencies.

UNRATIFIED CHANGES

Unfortunately, the majority of agencies did not reply to our inquiries. Consequently, 218 of the 271 changes proposed in the tentative recommendation

were not commented on. This leaves open the question of whether these “unratified” changes should be included in the final recommendation.

There are two points in favor of keeping the unratified changes in the recommendation:

- (1) *The changes are most likely obsolete.* In preparing the tentative recommendation, the staff took a conservative approach, excluding provisions that had any appearance of continued utility. Of course, the question of whether a provision is obsolete may depend on information that was not available to staff (e.g., whether a report was prepared as required).
- (2) *Any change that proves problematic during the legislative process can be dropped from the recommendation.* The proposed changes are purely technical. If an objection is raised to one or more of the changes, those changes can be dropped without negative effect on the remainder of the recommendation. Furthermore, once the recommendation is introduced as a bill, the affected agencies are much more likely to take notice and raise any appropriate objections.

On the other hand, it would be much easier to promote a recommendation that has been fully reviewed and approved by the affected agencies than a recommendation that has only had 20% of its contents vetted.

The Commission must decide whether to include the unratified changes in the final recommendation. This is the main policy decision to be made in connection with this memorandum. The remainder of the memorandum describes minor changes that were or were not made in response to agency comments.

OBJECTION TO PROPOSED CHANGE

The tentative recommendation proposes the repeal of Public Resources Code Section 5097.96, which provides:

5097.96. The commission may prepare an inventory of Native American sacred places that are located on public lands and shall review the current administrative and statutory protections accorded to such places. The commission shall submit a report to the Legislature no later than January 1, 1979, in which the commission shall report its findings as a result of these efforts and shall recommend such actions as the commission deems necessary to preserve these sacred places and to protect the free exercise of the Native American religions.

The Governor's Office of Planning and Research has indicated that this provision might have some continuing relevance in light of recent Legislative initiatives regarding Native American sacred sites. They requested that it not be repealed. See electronic mail from Tara Mesick to Brian Hebert (Nov. 4, 2002) (on file with Commission). The staff sees no reason to proceed with this change in light of the request that it not be made. The provision is not included in the attached draft.

SUGGESTIONS OF DEPARTMENT OF INSURANCE

The Department of Insurance has written to request that our recommendation include provisions deleting five reporting requirements attributed to the Department of Insurance. Those suggestions are discussed below.

Budget Act Provisions

Three of the referenced reporting requirements were imposed by the Budget Acts of 1989, 1990, and 1996. The Department of Insurance maintains that these requirements were limited to the budget year to which the relevant Budget Act applied, and therefore have no continuing legal effect.

There is apparently some dispute about whether the reporting requirements are, in fact, obsolete. The Department writes: "It is the legal opinion of CDI that these reports were due quarterly in the specific budget year, not every quarter thereafter. My staff were informed that Legislative Counsel has opined that the reporting requirements are for other years after the specific budget year." See letter from Anna Carr to Brian Hebert (Nov. 5, 2002) (on file with Commission).

Given the lack of consensus that the requirements are obsolete, it would seem that the proposed changes are inappropriate for inclusion in our recommendation. Our goal is to propose noncontroversial changes that can be enacted with a minimal expenditure of staff resources.

Nonetheless, the staff did briefly research whether there is anything that clearly limits application of a Budget Act to the fiscal year for which it appropriates funds. The staff could not find a general limitation of that type.

There are cases holding that a Budget Act is subject to the "single subject rule" (Cal. Const. art IV § 9), which is aimed at preventing the attachment of "rider" provisions to unrelated bills. See, e.g., *Planned Parenthood Affiliates v. Swoap*, 173 Cal. App. 3d. 1187 (1985) (Budget Act provision prohibiting funding of family planning clinics that provide abortion-related services amended existing law and therefore violated single subject rule). However, "a provision is

deemed germane for purposes of the single subject rule if it is 'auxiliary to and promotive of the main purpose of the act or has a necessary and natural connection to that purpose.'" Id. at 1197 (citation omitted). The staff found nothing to suggest that a provision of the Budget Act that requires ongoing fiscal reports would violate the single subject rule.

In fact, a quick search of the Budget Act of 1996 found examples of reports required to be submitted after the end of the 1996-97 fiscal year. See 1996 Cal. Stat. ch. 162, § 2.00 (Item 0450-101-0932) (report to be filed January 31, 1998), (Item 0820-102-0001) (report to be filed April 30, 1999). So clearly, the Legislature believes that there is no bar to a Budget Act having an effect beyond the pending fiscal year.

The 1996 provision which the Department of Insurance would delete provides:

The Department of Insurance shall provide to the Joint Legislative Budget Committee and to the fiscal committees in each house of the Legislature quarterly reports that provide the following information: (a) a progress report on the management of the conservation or rehabilitation of each estate (or both) and an explanation of any significant changes to the department's original management plan for the estate, and (b) an explanation of any changes to the estate budget occurring since the previous quarterly report budget information.

1996 Cal. Stat. ch. 162, § 2.00 (Item 0845-001-0217).

There is nothing in that provision limiting its application to the 1996-97 fiscal year. Perhaps that was an oversight, and such a limit should be inferred. However, another provision in the same budget item provides (with emphasis added):

The Department of Insurance shall prepare and submit to the Legislature a report, upon the conclusion of each calendar quarter *in the 1996-97 fiscal year*, that sets forth for that quarter a statement of cash flow and compares actual to budgeted expenditures.

The use of an explicit time limit in this provision implies that the absence of such a limitation in the earlier provision was intentional.

The staff recommends against including the Budget Act provisions in the final recommendation.

Inability to Comply

The Department of Insurance also points out a reporting requirement that seems to assume authority and access to information that the Department does not possess:

Report number five on the “Reports Due from Insurance Commissioner” page on the Legislative Counsel’s website requires the CDI to analyze specific tort, liability, and malpractice actions pursuant to California Insurance Code (CIC) Section 12961. Under the direction of Commissioner Low, the Department has undertaken an internal study to determine whether the CDI has any capacity to assemble and analyze the information necessary to provide the mandated report. Unfortunately, we have concluded that it is beyond the Department’s authority to do so.

It appears that the author of the original legislation that enacted CIC Section 12961 assumed that all of the listed court “actions” would involve a defense being provided by one or more insurers so that the Department could assemble the information simply by conducting a data call directed to licensed insurers. This is simply not the case....

Letter from Anna Carr to Brian Hebert (Nov. 5, 2002) (on file with Commission).

The staff is not persuaded that the reporting requirement should be included in the Commission’s recommendation. The purpose of our recommendation is to eliminate provisions that have become obsolete because their requirements have been satisfied. In this case, the required report has not been prepared (apparently, through no fault of the Department’s). Nonetheless, the Legislature saw the need for the report and it cannot be said that the provision requiring it is obsolete. What seems to be required now is either (1) an amendment to match the necessary authority and resources to the reporting requirement, or (2) a policy decision that the report is no longer needed. Either adjustment is beyond the scope of our present study.

Legislative Counsel Listing

Finally, the Department of Insurance notes that the Legislative Counsel’s listing of agency reporting requirements (www.agencyreports.ca.gov) identifies the report required under Insurance Code Section 1067.13 as the responsibility of the Insurance Commissioner. The Department then explains that the entity responsible for that report is the California Life and Health Insurance Guarantee

Association, which is not part of the Department of Insurance. See letter from Anna Carr to Brian Hebert (Nov. 5, 2002) (on file with Commission).

The staff does not see the need for a statutory amendment to correct an administrative error in the preparation of a list. We will forward the information provided by the Department of Insurance to the appropriate person in the Legislative Counsel's office.

OTHER SUGGESTED ADDITIONS TO RECOMMENDATION

The tentative recommendation invited agencies to identify provisions beyond those in the proposed law that should also be deleted as obsolete. We received a small number of such suggestions, which are discussed below.

Building Standards Commission

Health and Safety Code Section 18944.34 requires that the Building Standards Commission prepare a report regarding straw bale structures, by January 1, 2002. The requirement is conditioned on funding being made available for that purpose. The Building Standards Commission informs us that funding was never made available and consequently the report was never prepared. See electronic mail from Stanley T. Nishimura to Brian Hebert (Oct. 31, 2002) (on file with Commission). They ask that the section be repealed. The staff is concerned that repeal of this provision might thwart the Legislature's intent, by eliminating a requirement that could still be fulfilled if funding were made available. On the other hand, the deadline for completion has passed without funding being provided, and the likelihood that state funds would be made available in the near future is low. The suggested change is probably appropriate. It is included in the draft recommendation.

Department of Alcohol and Drug Programs

The draft tentative recommendation included an amendment to Section 11759.17, accompanied by a note asking whether the entire Chapter containing that Section is obsolete. The Department of Alcohol and Drug Programs indicates that the chapter is obsolete and should be repealed. See letter from Les Johnson to Brian Hebert (Dec. 12, 2002) (on file with Commission). The suggested change appears proper and has been included in the draft recommendation.

The Department also indicates that the report required by Health and Safety Code Section 11756.7(g) has been completed. They suggest that the provision be

deleted as obsolete. *Id.* The suggested change appears proper and has been included in the draft recommendation.

Office of the Attorney General

The Office of the Attorney General suggests the repeal of two obsolete reporting provisions:

- (1) Penal Code Section 13013, which required a report on the effectiveness of juvenile rehabilitation programs, by July 1, 1985.
- (2) Penal Code Section 11108.7, which required a report on the effectiveness of various gun reporting and tracing provisions, by January 1, 2002.

See letter from Peter Siggins to Brian Hebert (Oct. 30, 2002) (on file with Commission). The suggested changes appear proper and have been included in the draft recommendation.

South Coast Air Quality Management District

Health and Safety Code Section 40452(f) requires that a particular annual report prepared by the South Coast Air Quality Management District include “A response to audit recommendations pursuant to Section 40453.” The South Coast District points out that Section 40453 has been repealed. Consequently, the requirement to report on audit recommendation made under that section is obsolete. The South Coast District suggests that Section 40452(f) be deleted. See electronic mail from Jeri Voge to Brian Hebert (Oct. 23, 2002) (on file with Commission). The suggested change appears proper and has been included in the draft recommendation.

State Controller’s Office

The tentative recommendation proposes the repeal of Government Code Section 16272.3, and a conforming amendment to Section 16272.5. A note following these sections reads:

The chapter that contains Sections 16272.3 and 16272.5 relates to transitional adjustments to special district financing following enactment of Proposition 13. Those adjustments were to be made during the 1978-1979 fiscal year. The Commission would like to receive input on whether Chapter 3 (commencing with Section 16270) of Part 1.5 of Division 4 of Title 2 of the Government Code is itself obsolete and should be repealed.

The State Controller's office indicates that, with one exception, the chapter is obsolete. The exception is a reference to Section 16271 in Section 16113. See electronic mail from Phil Oppenheim to Brian Hebert (Jan. 7, 2003) (on file with Commission). However, the staff also found two other sections that refer to the Chapter 3 or its contents: Revenue and Taxation Code Sections 95(h(3) and 97.3(c)(3)(A). These provisions relate to the allocation of property tax revenues, a complex and sensitive subject. In light of these existing cross-references and the nature of the subject area governed by these provisions, the staff recommends that the final recommendation not repeal Chapter 3 entirely. Instead, the draft recommendation includes only those changes that were proposed in the tentative recommendation.

CONCLUSION

In anticipation of approval of a final recommendation, a spot bill has been introduced to implement the pending recommendation (S.B. 111 (Knight)). At present, that bill only includes provisions that have been approved by the relevant agencies (and any necessary conforming revisions). The bill will not be set for hearing until after the Commission has approved a final recommendation. If the Commission decides to include "unratified" changes in its recommendation, the bill will be amended to include those changes.

Respectfully submitted,

Brian Hebert

RECOMMENDATION

Obsolete Reporting Requirements

SUMMARY OF RECOMMENDATION

The Law Revision Commission recommends the amendment or repeal of numerous sections, to eliminate obsolete reporting requirements and make related changes of a minor or technical nature.

This recommendation was prepared pursuant to Resolution Chapter 166 of the Statutes of 2002.

OBSOLETE REPORTING REQUIREMENTS

1 Statutes requiring a government agency to issue a report are common. While
2 many such statutes require ongoing reporting, a large number require a single
3 report, to be prepared by a specified date. Once the required report has been
4 prepared, the provision requiring that report is obsolete. Obsolete provisions of
5 this type clutter the codes without serving a useful purpose.¹ The Legislature
6 occasionally cleans out these type of obsolete provisions.²

7 The Law Revision Commission recommends the amendment or repeal of over
8 270 sections, to eliminate obsolete reporting requirements and make related
9 changes of a minor or technical nature.

1. If an agency has not complied with a reporting requirement by the specified deadline, the reporting requirement is still enforceable and is therefore not obsolete. It is more likely that an agency will not have completed a required report if the deadline is a recent one. For that reason, the proposed legislation generally does not include reporting requirements with a deadline of 2000 or later.

Obsolete reporting requirements do provide some notice to the public that a report on a particular subject was prepared by an agency. However, there are better sources of information about government reports. Government publications are accessible to the public at depository libraries and at the State Archives. Lists of reports submitted to the Legislature are compiled by the Legislative Counsel (www.agencyreports.ca.gov) and in the *Assembly Final History* and *Senate Final History*. Government reports should also be available from the originating agency.

2. See, e.g., 2001 Cal. Stat. ch. 745.

18 12092 (a) This section shall be known, and may be cited, as the California Low
19 Income Home Energy Assistance Program. The California Low Income Home
20 Energy Assistance Program may be referred to as the California LIHEAP.

21 (b) The Department of Community Services and Development shall implement
22 the California LIHEAP.

23 (c) The California LIHEAP shall be separate from the federal Low-Income
24 Home Energy Assistance Program Block Grant provided for pursuant to the Low-
25 Income Home Energy Assistance Act of 1981, as amended (42 U.S.C. Sec. 8621,
26 et seq.), which is administered by the Department of Community Services and
27 Development pursuant to Sections 16367.5 to ~~16367.9~~ 16367.8, inclusive.

28 (d) The California LIHEAP established pursuant to this section is separate from
29 and independent of the California LIHEAP established in Chapter 7 of the Statutes
30 of 2001, First Extraordinary Session.

31 (e) Services provided by the California LIHEAP shall be designed to do both of
32 the following:

33 (1) Increase energy conservation and reduce demand for energy services in low-
34 income households.

35 (2) Ensure that the most vulnerable households cope with high energy costs.

36 (f) The California LIHEAP shall include weatherization and conservation
37 services, energy crisis intervention services, and cash assistance payments.

38 (g)(1) Persons eligible for the California LIHEAP shall be limited to households
39 with incomes that do not exceed the greater of either of the following:

40 (A) An amount equal to 60 percent of the state median income.

1 (B) An amount equal to 80 percent of the median income of the county in which

4 federal poverty level for the state be eligible.

5 (3) Notwithstanding paragraphs (1) and (2), licensed community care facilities
6 serving six or fewer adults or children shall be eligible for weatherization and
7 energy education under California LIHEAP.

8 (h) The department shall examine the penetration of other energy programs,
9 including, but not limited to, those provided by federal grant funds obtained
10 pursuant to the federal LIHEAP, utility companies, and other parties, to identify
11 the adequacy of services to all of the following:

12 (1) Elderly persons.

13 (2) Disabled persons.

14 (3) Limited-English-speaking persons.

15 (4) Migrant and seasonal farmworkers.

16 (5) Households with very young children.

17 (i) The California LIHEAP funds shall be distributed in grant form by the

20 (j) The department shall ensure that services under the California LIHEAP are
21 delivered subject to all of the following requirements:

22 (1) The department shall establish reasonable limits for expenditures, including
23 up to 15 percent for outreach and training for consumers.

24 (2) Grantee agencies shall do special outreach to vulnerable households,
25 including outreach to senior centers, independent living centers, welfare
26 departments, regional centers, and migrant and seasonal farmworkers.

27 (3) Grantee agencies shall be required to coordinate with other low-income
28 energy programs, and to demonstrate plans for using all energy resources
29 efficiently for maximum outreach to low-income households.

30 (4) Grantee agencies shall spend the maximum feasible amount of the California
31 LIHEAP funds for weatherization assistance, but in no event shall less than 50
32 percent of the funds available to the grantee be spent for weatherization purposes.
33 The balance shall be used for cash assistance and energy crisis intervention. The
34 department shall provide grantees with maximum flexibility to use energy crisis
35 and cash assistance funds to resolve energy crises for households and to serve the
36 maximum number of households. Cash assistance payments may be used as a
37 supplement to federal LIHEAP cash assistance payments.

38 (k) The department shall do all of the following in addition to administering the
39 program:

41 intake procedures, and procedures to combine outreach for federal, state, and
42 utility low-income energy programs into a single intake process.

1 (2) Report to the policy and budget committees of the Legislature on the extent
2 to which increased flexibility in weatherization measures and flexibility in cash
3 assistance and crisis intervention payments have increased service and reduced
4 energy demand. If barriers to flexibility exist, the report shall identify those
5 barriers.

6 (3) Report to the policy and budget committees of the Legislature on the number
7 of recipients of service, the number of grantees providing service, categories of
8 expenditure, estimated impact of funds on energy demand, estimated unmet need,
9 and plans for automated and routine reporting of this information.

10 (l) The department shall distribute funds in the 2001-02 fiscal year as follows:

11 (1) Funds shall be distributed to have maximum possible impact on reducing
12 energy demand immediately.

13 (2) First priority shall be to distribute funds through community-based programs
14 with which the department has existing contracts.

15 (3) If additional capacity is needed beyond the existing network, or if vulnerable
16 populations cannot be served within the existing contracts, the department may
17 develop a request for proposal process to solicit additional grantees.

18 (m) The department shall limit administrative costs to not more than 2 1/2
19 percent of the funds expended. For the purposes of this subdivision,
20 “administrative costs” means personnel and overhead costs associated with the
21 implementation of each measure or program. However, “administrative costs”
22 does not include costs associated with the marketing or evaluation of a measure or
23 program.

24 (n) This section shall remain in effect only until January 1, 2005, and as of that
25 date is repealed, unless a later enacted statute, that is enacted before January 1,

1 14036.6. (a) The Legislature finds and declares all of the following:

2 (1) Rail passes offering unlimited travel on certain passenger rail and associated

4 in Europe, Canada, and Alaska.

5 (2) A “California Pass,” valid on state-funded intercity and commuter rail lines,
6 state-funded feeder buses, and major local transit systems would be a major
7 benefit to tourism, while at the same time providing a package of transportation
8 options which do not worsen highway congestion.

9 (3) Use of a single payment mechanism makes existing mass transportation
10 services easier to use, by eliminating the need for familiarity with multiple
11 complex tariffs and the need for correct change.

12 (b) The department shall investigate, and if feasible implement, a “California

26 specified number of days within a longer period of time. In addition, the
27 department shall develop a procedure for distributing pass revenues to each
28 participating operating entity, and for marketing the pass to prospective users.

29 (d) Prior to implementing a “California Pass” program, the department shall
30 consult with each participating operating entity. The department shall not adopt
31 procedures for the distribution of pass revenues without first submitting the
32 proposed procedures to each affected operating entity.

33 ~~(e) The department shall submit a report to the Legislature by April 1, 1992, on
34 its activities pursuant to this section.~~

35 (f) Nothing in this section precludes the department from implementing, as an

20 **PART 14. ENVIRONMENTAL QUALITY STUDY COUNCIL**

21 **CHAPTER 1. STATE POLICY**

22 16000. The Legislature finds that:

23 (a) Rapid population growth, economic development and urbanization have affected the quality
24 of California's natural environment.

25 (b) The proliferation of noise from transportation sources have led to the exposure of large
26 sectors of the populace to an unacceptable degree of noise.

27 (c) The anticipated rates of construction of new airports and extension of existing airports,
28 construction of freeways and mass rapid transit lines, and the introduction into service of
29 intraurban short takeoff and land and vertical takeoff and land aircraft operating at low cruising
30 altitudes will rapidly escalate the urban noise problem unless systematic preventive measures are
31 taken.

32 (d) There is a large discrepancy between the technology available for control of urban noise and
33 the degree to which it is being utilized in practice, through such means as land use planning, noise
34 control provisions in building design and construction, and legal control over the movements of
35 noise-producing transportation vehicles.

36 (e) Improvement of the quality of California's physical environment consistent with the
37 maximum benefit to the people of the state is a matter of statewide, regional, and local concern
38 calling for coordinated public and private action in the interest of the health, safety, and welfare
39 of present and future generations.

40 16001. An in-depth study is needed:

41 (a) To define the interrelationship of resources management, land use and transportation
42 policies, and other matters, including noise emissions, that affect environmental quality.

1 (b) To determine whether existing approaches to the protection, management, and improvement
2 of environmental quality are adequate for effective, long-range solutions to the problems.

3 (c) To recommend appropriate action necessary to effectively protect, manage, and improve
4 environmental quality on a long-range basis.

5 CHAPTER 2. DEFINITIONS

6 16020. "Council" means the State Environmental Quality Study Council.

24 **Comment.** Section 53125 is repealed as obsolete. By its own terms the section remained in
25 effect only until January 1, 2000.

27 **ARTICLE 6.5. LOCAL NONEMERGENCY TELEPHONE SYSTEM PILOT**
28 **PROGRAM**

29 53125. (a) The Legislature finds and declares that the efficient and effective use of the "911"
30 emergency telephone system has recently been compromised by an increase in nonemergency
31 calls to that number. The Legislature further finds and declares that these nonemergency calls can
32 burden the "911" system, diverting "911" call-takers and radio dispatchers from true
33 emergencies. For these reasons, the Legislature finds and declares that a need exists to implement
34 procedures to limit the use of the "911" system to true emergencies, and to provide citizens with
35 an alternative phone system for nonemergencies. The purpose of the pilot program is to assess
36 whether the establishment of a "311" nonemergency telephone system will substantially decrease
37 the use of the "911" system for nonemergencies.

38 (b) The Division of Telecommunications of the Department of General Services shall conduct a
39 pilot program to evaluate alternative means to reduce the use of the "911" telephone number for
40 nonemergency assistance. The pilot program shall consist of the following two approaches:

41 (1) The use of a "311" telephone number as a means of reaching local public safety agencies
42 for nonemergency assistance.

1 (2) Improved marketing of the use of and access to existing nonemergency telephone numbers
2 for nonemergency assistance, which may include, but shall not be limited to, providing decals for
3 each individual telephone within the study area, which include the nonemergency telephone
4 numbers of public safety entities serving the area in which the telephone is located.

5 (c) The pilot program shall be implemented as soon as the Division of Telecommunications
6 determines that it is practicable to do so, but in no event later than July 1, 1998. The division may
7 select one or more locations to implement the pilot program, and shall, to the extent possible,
8 select areas with comparable characteristics to serve as a study area for one of the two approaches
9 specified in subdivision (b) to permit reasonable comparisons of the two alternative approaches,
10 and is encouraged to share the costs of the pilot program with the local agency or agencies.
11 Participation in the pilot program shall be on a voluntary basis on the part of the local agency or
12 agencies. The division shall assess the effectiveness of each of the two approaches specified in
13 subdivision (b) by evaluating the following factors:

14 (1) The overall impact of each of the two approaches specified in subdivision (b) on the “911”
15 system.

16 (2) The costs associated with the establishment, operation, and maintenance of either approach
17 specified in subdivision (b).

18 (3) The difficulties associated with appropriately routing emergency calls placed to the “311”
19 telephone number or the existing nonemergency telephone number.

20 (4) The staffing requirements for “311” operators as compared to “911” dispatchers.

21 (5) Whether the use of either the “311” number or the existing nonemergency telephone
22 number has caused confusion to the public, particularly with respect to the mistaken use of either
23 “311” or the existing nonemergency telephone number instead of “911” by children.

24 (d) The pilot program shall be deemed to have demonstrated the success of either approach
25 specified in subdivision (b) if the assessment required by subdivision (c) finds that the “311”
26 telephone number or the existing nonemergency telephone number does not create confusion with
27 the “911” program and finds that either approach specified in subdivision (b) has contributed to:

28 (1) Reducing “911” calls.

29 (2) Improving answer time for “911” calls.

30 (3) Reducing unanswered “911” calls.

31 (4) Reducing nonemergency “911” calls.

32 (e) The division shall submit a report to the Governor and the Legislature on the results of the
33 pilot program and its assessment and comparison of each approach specified in subdivision (b) by
34 July 1, 1999.

35 (f) This section shall remain in effect until January 1, 2000.

4 ~~affected groups including judges, court clerks, court administrators, court~~
5 ~~reporters, attorneys, historical and research groups, and others as identified by the~~

7 ~~areas: (a) the volume of trial court records now in existence, together with the~~
8 ~~methods of maintaining records, and the costs of record maintenance; (b) the rate~~
9 ~~at which records are accumulating; and (c) the use of records by the courts and by~~
10 ~~the public.~~

11 ~~On or before July 1, 1992, the Judicial Council shall submit a report to the~~
12 ~~Legislature on uniform statewide record management policies and practices~~

28 ~~maximize alternate uses.~~

29 ~~(2) The types of support facilities that would be needed for such a megatrial~~
30 ~~facility, such as a library, child care facilities, or offices.~~

31 ~~(3) A cost comparison of using existing facilities, renting facilities on a case-by-~~
32 ~~case basis, constructing temporary facilities and dismantling them after use, and~~
33 ~~constructing permanent facilities and encouraging their maximum usage.~~

34 ~~(4) The number of cases which would make such a facility feasible and the~~
35 ~~frequency, jurisdiction, and location of these cases.~~

36 ~~(5) Data on megatrials for the past 10 years, to include, but not be limited to,~~
37 ~~associated costs, duration, number of litigants and witnesses, and location.~~

38 ~~(6) The options for bringing judges and juries from the original jurisdiction for~~
39 ~~megatrial or using those located near the facility.~~

18 ~~3,000 shall be funded.~~

19 (2) ~~Each program to be funded shall demonstrate the capacity to serve at least 5~~

28 **CHAPTER 3.5. ALCOHOL DETOXIFICATION AND IV DRUG USER AIDS**
29 **EDUCATION PILOT PROJECT**

30 11758.50. The Legislature finds and declares all of the following:

31 (a) Alcohol and other drug related problems are a health issue which dramatically impact
32 California's county programs and county budgets.

33 (b) Alcohol not only affects the individual involved but potentially extends to the many county
34 programs which involve these individuals and their families.

35 (c) Additionally, drug abuse and especially intravenous drug abuse relates directly to the
36 contracting and spreading of AIDS.

37 (d) Drug and alcohol, and their health and welfare related costs are already straining local
38 government budgets.

39 (e) There are approximately 225,000 habitual needle using drug addicts and an additional
40 200,000 recreational intravenous drug users in the state.

1 (f) The relationship of intravenous drug users and the transmission of AIDS is well-
2 documented. AIDS cases, currently estimated to cost almost one hundred thousand dollars
3 (\$100,000) from diagnosis-to-death, are catastrophic to those budgets.

4 11758.51. The department shall provide funding, for the 1990-91 fiscal year, for an in- home
5 alcohol detoxification, and intravenous drug user AIDS education pilot project to be established
6 in San Luis Obispo County. The pilot project shall be administered by the alcohol and drug
7 program department of the county. The pilot project shall be required to be implemented only to
8 the extent that state funds are provided. The pilot project shall terminate on July 1, 1991, except
9 as otherwise specified by the county.

10 11758.52. (a) The pilot project created pursuant to this chapter shall treat drug and alcohol
11 abusers through a county administered in-home detoxification and AIDS education program.

12 (b) The client contact shall be through a public health nurse who shall provide all of the
13 following:

- 14 (1) Information and monitoring of the detoxification period.
- 15 (2) Information and educational materials on drug and alcohol abuse.
- 16 (3) Information on the contracting and transmission of AIDS via intravenous drug use.
- 17 (4) Information and contacts with drug and alcohol, and AIDS support groups.

18 11758.53. The pilot project shall be administered in accordance with criteria agreed upon by
19 the department and San Luis Obispo County.

20 11758.54. (a) The department, in cooperation with San Luis Obispo County, shall evaluate the
21 pilot project created pursuant to this chapter. The evaluation shall include numbers of intravenous
22 (IV) drug users in target counties, status of HIV test results among alcoholics and IV drug users
23 not in recovery, drug and alcohol-related jail intakes, and repeat offenses. Changes in the above
24 data following completion of the in-home detoxification project shall be carefully scrutinized.
25 Particular attention shall be paid to changes in incidence of HIV test results among individuals
26 requesting testing from the San Luis Obispo County health department and repeat alcohol- and
27 drug-related offenses as tracked by the county jail, municipal court, and Department of Motor
28 Vehicles.

29 (b) Additional monitoring and outcome data shall be collected regarding clients of the in-home
30 detoxification pilot project, that shall include each of the following:

- 31 (1) Clients' health status at time of intake screening.
- 32 (2) Clients' health status during detoxification.
- 33 (3) Clients' health status after detoxification.
- 34 (4) Status and results of HIV testing for those choosing the test.
- 35 (5) Numbers of detoxification referrals completed.
- 36 (6) Numbers of successful referrals to followup.
- 37 (7) Rate of subsequent rearrest.

38 (c) The degree of successful completion of program objectives shall also be analyzed and
39 discussed. Analysis shall be based on results of monitoring instruments designed for the in-home
40 detoxification project that shall include all of the following:

- 41 (1) Numbers of referrals to the in-home detoxification project initiated.
- 42 (2) Numbers of clients (both detoxification clients and family members) who successfully meet
43 educational criteria related to AIDS education.
- 44 (3) Numbers of detoxification referrals completed.
- 45 (4) Numbers of successful referrals to followup treatment.
- 46 (5) Rate of subsequent rearrest.

47 (d) The department shall submit an evaluation of the pilot project to the Governor and the
48 Legislature not later than July 1, 1992.

1 (e) Blood testing and test result disclosure shall be in accordance with Chapter 7 (commencing
2 with Section 120975) and Chapter 10 (commencing with Section 121075) of Part 4 of Division
3 105.

4 **Health & Safety Code §§ 11759.10-11759.17 (repealed). Employee Assistance Consortium**
5 **Demonstration Program**

6 SEC. ____ Chapter 5 (commencing with Section 11759.10) of Part 1 of Division
7 10.5 of the Health and Safety Code is repealed.

8 **Comment.** Sections 11759.10-11759.17 are repealed as obsolete. The demonstration program
9 to which they relate has been completed.

10  **Note.** The text of the repealed chapter is set out below for reference:

11 **CHAPTER 5. EMPLOYEE ASSISTANCE CONSORTIUM**
12 **DEMONSTRATION PROGRAM**

13 11759.10. The Legislature finds and declares all of the following:

14 (a) It is estimated that 20 percent of employed Californians are experiencing problems with
15 alcohol and drugs or other related family concerns. Most working people experiencing these
16 problems are still at some stage of performing daily responsibilities and attempt to function at
17 some level in their workplace.

18 (b) Work, itself and its possible loss, is a prime motivating force in helping a chemically
19 dependent person seek assistance while he or she still has the support of job and family.

20 (c) The constructive confrontation process which focuses on deteriorating job performance is a
21 valuable workplace strategy in motivating the chemically dependent person to pursue
22 rehabilitation.

23 (d) Employer statistics indicate that occupational programs have had considerable success in
24 both intervention and rehabilitation. Some industrial programs have reported statistics as high as
25 85 percent success in returning impaired employees to acceptable job performance. While cost-
26 effectiveness figures vary, employers generally find that for every dollar they invest in an
27 employee assistance program, they save from five dollars (\$5) to sixteen dollars (\$16).

28 (e) Although larger corporations and unions have established examples of successful employee
29 assistance program models, only 20 percent of the workforce has access to programs through their
30 employer or union. Smaller businesses have been unable to participate in employee assistance
31 program services due to the costs associated with program development and implementation. In
32 addition, most employee assistance program providers have not marketed their services to smaller
33 employers.

34 (f) Most of California's drug or alcohol impaired workers are in "hard-to- reach" work
35 environments. Smaller employers who have workers with substance abuse and other problems
36 typically do not have access to traditional management-personnel support to identify and refer
37 their employees to rehabilitation services. Additionally, these employers have little or no regular
38 health benefits and, as a result, many of the state's working poor are in this category.

39 11759.11. It is the intent of the Legislature that nothing in this chapter authorize employee
40 assistance programs or their personnel to provide diagnostic or treatment services beyond the
41 scope of the core activities described in Section 11759.12, unless the services are provided by
42 health care organizations or health care professionals duly licensed to do so, or entities
43 specifically exempted by state law or regulation from licensure.

44 11759.12. As used in this chapter:

1 (a) "Consortium" means a not-for-profit corporation as set forth in Section 501(c)(3) of the
2 Internal Revenue Code (26 U.S.C. Sec. 501(c)(3)), formed by two or more small businesses for
3 the purpose of receiving demonstration project grant funds pursuant to this chapter.

4 (b) "Small business" means an employer with less than 100 employees.

5 (c) "Council" means the Employee Assistance Advisory Council.

6 (d) "Department" means the State Department of Alcohol and Drug Programs.

7 (e) "Employee assistance program" for purposes of this demonstration project only, means a
8 worksite-focused program designed to assist in the identification and resolution of productivity
9 problems associated with employees impaired by personal concerns, including, but not limited to,
10 health, marital, family, financial, alcohol, drug, legal, emotional, stress, or other personal
11 concerns which may adversely affect employee job performance.

12 The specific core activities of an employee assistance program includes at least both of the
13 following:

14 (1) Expert consultation and training to appropriate persons in the identification and resolution
15 of job-performance issues related to the listed employee personal concerns.

16 (2) Confidential, appropriate, and timely problem-assessment services; referrals for appropriate
17 diagnosis, treatment, and assistance; establishing linkages between workplace and community
18 resources that provide such services; and followup services for employees who use those services.

19 (f) "Program" means the Employee Assistance Consortium Demonstration Program.

20 11759.17. (a) There is hereby created in the department the Employee Assistance Consortium
21 Demonstration Program, to provide a public-private partnership where the state will provide
22 financial and technical assistance resources to consortiums to promote and facilitate the
23 establishment of employee assistance programs designed to serve the small business members of
24 the consortium.

25 The goal of the program is to achieve and maintain a drug-free workplace by pooling resources
26 of smaller employers to provide employee assistance program services, including, but not limited
27 to, problem assessment and referral, management consultation and training, case management
28 services, program promotion, and education.

29 (b) The program shall provide resources to a consortium for only two years. The first year
30 funding shall not exceed 70 percent of the total program cost or sixty thousand dollars (\$60,000),
31 whichever is less. The second year funding shall not exceed 30 percent of the total program cost
32 or twenty-six thousand dollars (\$26,000), whichever is less.

33 (c) No funds appropriated to the department for the purposes of this chapter shall be used by the
34 department to conduct employee assistance programs or to provide employee assistance program
35 services, capital construction, to replace existing public or private funding available for the
36 purposes of this chapter, or to continue already existing employee assistance program services.

37 (d) No individual or entity involved in the application for grant funds or that receives a
38 financial benefit from the grant funds made available pursuant to this chapter may be employed
39 by or contract with the consortium to select, provide, or evaluate employee assistance program
40 services. Further, individuals or entities involved in the application for grant funds or who receive

43 the selection, provision, or evaluation of the services.

44 (e) No more than 10 percent of any funds made available to the department for the purposes of

46 (f) On or before January 1, 1993, the department, with the assistance of the council, shall report
47 to the Legislature on the effectiveness of the Employee Assistance Consortium Demonstration
48 Program. The department and the council shall deem the demonstration program to be successful
49 if all of the following conditions are met:

50 (1) The demonstration program enabled at least 70 small businesses to initiate the provision of
51 employee assistance services for their previously unserved employees.

- 1 (2) The demonstration program enabled at least 3,500 small business employees to receive

5 **Health & Safety Code § 11772 (amended). Contracts with public or private agencies**

6 SEC. _____. Section 11772 of the Health and Safety Code is amended to read:

7 11772. (a) The department may enter into contracts with public or private
8 agencies or make grants necessary or incidental to the performance of its duties
9 and the execution of its powers, including contracts with public or private agencies
10 and individuals, to pay them in advance or reimburse them for services provided to
11 problem drinkers and their families and communities. The Legislature finds and
12 declares that many of the activities required of the department which are necessary
13 to carry out its duties under this part are unique to alcohol services and programs.
14 Therefore, the Legislature directs the department to contract with public or private
15 agencies or individuals to perform its duties whenever that expertise is available
16 and appropriate to utilize.

17 (b) Notwithstanding any other provision of this part, the department may not
18 contract directly for the provision of alcohol services except as follows:

19 (1) To provide referral and monitoring services for recipients of Supplemental
20 Security Income in those counties that choose not to provide these services.

21 (2) For demonstration programs of limited duration and scope which, wherever
22 possible, shall be administered through the counties and which are specifically
23 authorized and funded by the Budget Act or other statutes.

24 (3) ~~For pilot projects under Chapter 3 (commencing with Section 11758.10).~~

25 (4) To provide supportive services, such as technical assistance, on a statewide
26 basis, or management and evaluation studies to help assure more effective
27 implementation of this part.

28 (c) The Legislature strongly encourages all counties to apply for funds under this
29 part because of the seriousness of alcohol problems in California and the necessity
30 for affirmative governmental involvement to help alleviate alcohol problems.
31 However, the Legislature has chosen not to mandate that counties provide those
32 services and programs. In the absence of local community control of the services
33 and programs, the state shall not intervene to operate directly or through contract
34 services and programs which the elected county board of supervisors has chosen
35 not to provide to its constituents.

36 **Comment.** Sections 11772 is amended to reflect the repeal of former Chapter 3 (commencing
37 with Section 11758.10).

7 ~~independent evaluation and contained in the final report.~~

8 **Comment.** Section 11782 is repealed as obsolete. The required report was to be completed by
9 September 30, 1991.

29 (5) A list of the specific hazardous waste constituents discharged into each well,
30 the dates of these discharges, and approximate volumes of the discharges unless
31 the person demonstrates, for a well which has not been in operation since January
32 1, 1980, that the information cannot be ascertained.

33 (6) A description of any method used to monitor the well for leaks and migration
34 into surrounding soils or groundwater.

35 (c) Each statement shall be accompanied by a fee specified in the fee schedule
36 adopted by the department pursuant to Section 25159.19, set in an amount
37 sufficient to cover the reasonable costs of the department in administering this
38 section.

39 (d) Any person who fails to submit the statement and the fee for each injection
40 well to the department by January 1, 1987, is subject to a civil penalty in an
41 amount of not less than one thousand dollars (\$1,000) and not more than ten
42 thousand dollars (\$10,000) per day for each day the statement has not been

1 received. Any person who submits false information to the department is subject to
2 a civil penalty in an amount of not less than two thousand dollars (\$2,000) and not
3 more than twenty five thousand dollars (\$25,000) per day for each day the false
4 information goes uncorrected.

5 (e) The department shall compile the hazardous waste injection statements by
6 each city and county within which the well is located. These compilations shall be
7 transmitted to the state board, the appropriate regional boards, cities, and counties
8 on or before July 1, 1987.

9 (f) The department shall submit to the Legislature, on or before January 1, 1988,
10 a report, based on the compilation of the hazardous waste injection statements
11 made pursuant to subdivision (e) and any other information available to the
12 department, which details the injection well sites which have resulted in
13 contamination of land, air, or water and describing any proposed enforcement and
14 remedial actions.

15 (g) This section applies only to injection wells into which hazardous waste is
16 discharged.

20 SEC. _____. Section 25159.19 of the Health and Safety Code is amended to read:

21 25159.19 (a) On or before July 1, 1986, the department shall, by emergency
22 regulation, adopt a fee schedule which assesses a fee upon any person discharging
23 any hazardous wastes into an injection well. The department shall include in this
24 fee schedule the fees charged for filing a hazardous waste injection statement
25 specified in former Section 25159.13, as added by Chapter 1591 of the Statutes of
26 1985, the report specified in Section 25159.18, and applications for, and renewals
27 of, the exemptions specified in Section 25159.15. The department shall also
28 include provisions in the fee schedule for assessing a penalty pursuant to
29 subdivision (c). These fees shall be based on the reasonable anticipated costs
30 which will be incurred by the department to implement and administer this article.
31 The department may also request an appropriation to be used in combination with
32 these fees to perform the monitoring, inspections, review of reports, or any other
33 implementation and administrative actions required by this article.

35 the department in accordance with Chapter 3.5 (commencing with Section 11340)
36 of Part 1 of Division 3 of Title 2 of the Government Code, and for the purposes of
37 that chapter, including Section 11349.6 of the Government Code, the adoption of
38 these regulations is an emergency and shall be considered by the Office of
39 Administrative Law as necessary for the immediate preservation of the public
40 peace, health, and safety, and general welfare. Notwithstanding Chapter 3.5
41 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the
42 Government Code, any emergency regulations adopted by the department pursuant

1 to this section shall be filed with, but not be repealed by, the Office of
2 Administrative Law and shall remain in effect until revised by the department.

3 (c) The department shall send a notice to each person subject to the fee specified
4 in subdivision (a). If a person fails to pay the fee within 60 days after receipt of
5 this notice, the department shall require the person to pay an additional penalty
6 fee. The department shall set the penalty fee at not more than 100 percent of the
7 assessed fee, but in an amount sufficient to deter future noncompliance, as based
8 upon that person's past history of compliance and ability to pay, and upon
9 additional expenses incurred by this noncompliance.

10 (d) The department shall collect and deposit the fees and penalties collected
11 pursuant to this section in the Hazardous Waste Injection Well Account, which is
12 hereby created in the General Fund. The money within the Hazardous Waste
13 Injection Well Account is available, upon appropriation by the Legislature, to the
14 department for purposes of administering this article.

15 (e) This section applies only to injection wells into which hazardous waste is
16 discharged.

21 **ARTICLE 5. HAZARDOUS MATERIALS USE REDUCTION INSTITUTE**

22 25547. For the purposes of this article the following definitions apply:

23 (a) (1) "Hazardous materials use reduction" means inplant changes in production processes or
24 raw materials that reduce, avoid, or eliminate the use of hazardous materials, or the generation of
25 hazardous by-products per unit of product, so as to reduce risks to the health of workers,
26 consumers, or the environment, without shifting risks between workers, consumers, or parts of the
27 environment. Hazardous materials use reduction shall be achieved through any of the following
28 techniques:

29 (A) Input substitution, which means replacing a hazardous material or raw material used in a
30 production process with a nonhazardous or less hazardous material.

31 (B) Product reformulation which means substituting for an existing end product an end product
32 which is nonhazardous or less hazardous upon use, release, or disposal.

33 (C) Production process redesign or modification, which means developing and using
34 production processes of a different design than those currently used.

35 (D) Production process modernization, which means upgrading or replacing existing production
36 process equipment and methods with other equipment and methods based on the same production
37 process.

38 (E) Improved operation and maintenance controls of production process equipment and
39 methods, which means modifying or adding to existing equipment or methods, including, but not
40 limited to, such techniques as improved housekeeping practices, system adjustments, product and
41 process inspections, and production process control equipment or methods.

42 (F) Recycling, reuse, or extended use of hazardous materials by using equipment or methods
43 which become an integral part of the production process of concern, including, but not limited to,
44 filtration and other closed- loop methods.

1 (2) "Hazardous materials use reduction" does not include promoting or requiring incineration,
2 the transfer from one medium of release or discharge to other media, offsite hazardous waste
3 recycling, or any method of treating hazardous waste at the end of the production process.

4 (b) "Institute" means the Hazardous Materials Use Reduction Institute specified in Section
5 25547.1.

6 25547.1. It is the intent of the Legislature that the University of California enhance its research
7 and teaching activities relating to hazardous materials use reduction, and to examine the
8 feasibility of establishing a hazardous materials use reduction institute within the University of
9 California. To accomplish this purpose, the university is requested to report to the Legislature by
10 March 1, 1991, on the following:

11 (a) Existing research and teaching programs within the university that promote an
12 understanding of hazardous materials use reduction and which develop new processes and
13 materials to promote hazardous materials use reduction techniques used by industry.

14 (b) The feasibility of establishing a Hazardous Materials Use Reduction Institute that
15 encourages and coordinates research, teaching, and training in hazardous materials use reduction,
16 which may include, but not be limited to, the fields of engineering, environmental health and
17 safety, and occupational health and safety.

18 (1) The report shall evaluate possible functions to be provided by such an institute, including
19 the following:

20 (A) Providing general information about, and actively publicize the advantages of and
21 developments in, hazardous materials use reduction, and the requirements of this chapter.

22 (B) Establishing courses, seminars, updates, guidelines, and other publications, and other
23 means of providing technical information for hazardous materials users, including small quantity
24 users, and, as appropriate, work in cooperation with the department.

25 (C) Developing and providing undergraduate curriculum and training for students and faculty
26 on hazardous material use reduction.

27 (D) Establishing and providing for a hazardous materials use reduction postgraduate education
28 and research program for both of the following purposes:

29 (i) To train students who seek graduate level educational training and advanced degrees in
30 hazardous materials use reduction.

31 (ii) To train professionals to be qualified to assist businesses or business groups to reduce the
32 use of hazardous materials.

33 (E) Providing onsite technical extension services to help identify opportunities for hazardous
34 materials use reduction among hazardous materials user groups and handlers, which include an
35 emphasis on providing information to the general public.

36 (F) Sponsoring pilot projects to develop and demonstrate innovative technologies for hazardous
37 materials use reduction and making available results of these projects for use by the public.

38 (G) Providing hazardous materials use reduction training and assistance to government
39 employees, citizens, community groups, workers, labor representatives, and local government
40 boards and officials.

41 (H) Establishing, to the extent possible with hazardous materials users or user groups, including
42 small quantity users, an intensive technology transfer, research, and technical assistance program
43 regarding the most hazardous materials.

44 (I) Studying the social, environmental, and economic costs and benefits of hazardous materials
45 technologies as compared to hazardous materials use reduction practices.

46 (J) Establishing a competitive grants program for research on hazardous materials use reduction
47 techniques and materials.

48 (K) Conducting research on alternative methods of reducing the use of hazardous materials,
49 including the reduction of hazardous materials in product formulation so as to reduce household,
50 as well as industrial, hazards.

51 (L) Providing information on hazardous materials use reduction for application to the
52 preparation of use and source reduction plans, pursuant to the Hazardous Waste Source Reduction

1 and Management Review Act of 1989 (Article 11.9 (commencing with Section 25244.12) of
2 Chapter 6.5 of Division 20 of the Health and Safety Code).

3 (2) The report shall address the issues of the governance of the institute and the appropriate role
4 and composition of a public advisory committee.

5 25547.2. The report specified in Section 25547.1 shall consider the availability of funding
6 sources not currently available from the state, nonstate funding sources, and the establishment of
7 fees, tuitions, or other financial charges as a means of funding the functions of the institute.

15 **Health & Safety Code § 38045 (repealed). Direct service contracts with nonprofit
16 organizations**

17 SEC. _____. Section 38045 of the Health and Safety Code is repealed.

18 38045. (a) It is the intent of the Legislature to ensure that nonprofit organizations
19 that enter into human services contracts with the state are provided with the
20 appropriate information to enable them to faithfully execute the contracts and meet
21 the audit standards that are established by the various departments of state
22 government which contract for services through local assistance funding.

23 (b) The Auditor General shall review the contract reform, appeals, and audit
24 processes set forth in this division and Division 25.1 (commencing with Section
25 38050), with respect to their application to direct service contracts with nonprofit
26 organizations, and shall report thereon to the Legislature on or before July 1, 1989.
27 The report shall contain recommendations to achieve a reduction in the number of
28 audit exceptions and appeals so as to improve the efficient administration of direct
29 service contracts with nonprofit organizations.

30 **Comment.** Section 38045 is repealed as obsolete. The required report was to be completed by
31 July 1, 1989.

32 **Health & Safety Code § 39663 (repealed). Control of landfill gas**

33 SEC. _____. Section 39663 of the Health and Safety Code is repealed.

34 39663. (a) For purposes of this section “landfill” means a solid waste landfill, as
35 defined in subdivision (a) of Section 40195.1 of the Public Resources Code.

36 (b) The Legislature hereby finds and declares all of the following:

37 (1) Despite the adoption of stringent emission reduction measures, especially as
38 applied to stationary sources, southern California and other regions of the state
39 exceed a number of federal and state ambient air quality standards, often by wide
40 margins.

1 (2) Noncombustion landfill gas control technologies that convert landfill gas to
2 alternative fuels may offer opportunities to achieve additional emission reductions
3 beyond those currently being achieved.

4 (3) Alternative fuels produced from landfill gas may generate a revenue stream
5 for landfill operators and may be sold as, among other things, a reformulated
6 gasoline additive and an alternative vehicle fuel. Both uses are key components of
7 local air quality management plans in nonattainment areas to achieve compliance
8 with state and federal ambient air quality standards.

9 (4) It is in the interests of the people of this state to identify and encourage the
10 use of technologies that can cost-effectively achieve additional pollutant emission
11 reductions for stationary sources while producing a marketable product from
12 renewable waste materials that can further reduce emissions from vehicles.

13 (c) On or before January 1, 1998, the state board, in consultation with the south
14 coast district and other districts, as feasible, shall conduct a study and prepare a
15 report thereon that does all of the following:

16 (1) Identifies commercially available technologies to control landfill gas that are
17 not based on combustion as the means of controlling or destroying emissions from
18 landfill gas.

19 (2) Analyzes the effects on air quality of the use of technologies identified
20 pursuant to paragraph (1) and compares the results of that analysis with emissions
21 from landfill gas control technologies for which best available control technology
22 has been established, emphasizing opportunities for further reductions in
23 emissions of criteria pollutants.

24 (3) Identifies opportunities for emission reduction credits resulting from the use
25 of technologies identified pursuant to paragraph (1) compared to the use of landfill
26 gas control technologies for which best available control technology has been
27 established, based on the state board's best assessment of current and projected
28 values of credits for specified pollutants.

29 (4) Identifies those landfill gas control technologies that have the ability to
30 generate revenue from the production of energy or alternative fuels, and analyzes
31 the potential economic impact of those revenues on the use of the technologies.

32 (d) In preparing the report required by subdivision (c), the state board shall make
33 all reasonable efforts to obtain financial and technical assistance from districts, and
34 districts that assist in preparing the report shall make all reasonable efforts to
35 provide that assistance to the state board.

36 **Comment.** Section 39663 is repealed as obsolete. The required report was to be completed by
37 January 1, 1998.

38 **Health & Safety Code § 40410.5 (amended). South coast district sensitive zone**

39 SEC. ____ . Section 40410.5 of the Health and Safety Code is amended to read:

40 40410.5. (a) There is hereby established within the south coast district a sensitive
41 zone, which shall include the general forecast areas known as the San
42 Gabriel/Pomona Valleys and the Riverside/San Bernardino areas.

1 (b) In addition to every other requirement for the issuance of a permit, the
2 following requirements shall be applicable to the issuance of a permit by the south
3 coast district for the construction or operation of any stationary source within the
4 sensitive zone:

5 (1) When emission offsets are required to mitigate the air quality impacts of a
6 stationary source, the offsets shall be secured by the applicant so as to bring about
7 ambient air quality improvements within the sensitive zone. The applicant shall be
8 required to demonstrate, to the satisfaction of the south coast district, that any
9 emissions reductions acquired from stationary sources operating within the South
10 Coast Air Basin will result in a demonstrable net ambient air quality improvement
11 within the sensitive zone.

12 (2) In considering an application for a permit to construct or operate a stationary
13 source, the south coast district board shall, in addition to making a finding and
14 determination that the impacts of the stationary source will be mitigated so as to
15 result in a net improvement in ambient air quality within the South Coast Air
16 Basin, also make a finding and determination that the impacts of the stationary
17 source can be mitigated so as to result in a net improvement in ambient air quality
18 within the sensitive zone.

19 (c) The south coast district board shall adopt rules and regulations to implement
20 this section by January 1, 1991.

21 ~~(d) The south coast district shall report to the Legislature by January 1, 1992, on
22 the implementation of subdivision (b). This report shall include a description of
23 the impact of the requirements of subdivision (b) on the issuance of permits for the
24 construction or operation of stationary sources within the sensitive zone, and upon
25 air quality within the sensitive zone.~~

30 40452. The south coast district shall submit an annual report to the state board
31 and the Legislature summarizing its regulatory activities for the preceding calendar
32 year. The report shall include all of the following:

33 (a) A summary of each major rule and rule amendment adopted by the south
34 coast district board. The summary shall include emission reductions to be
35 accomplished by each rule or regulation; the cost per ton of emission reduction to
36 be achieved from each rule or regulation; other alternatives that were considered
37 through the environmental assessment process; the cost per ton of comparable
38 emission reductions that could have been achieved from each alternative; a
39 statement of the reason why a given alternative was chosen; the conclusions and
40 recommendations of the district's socioeconomic analysis, including any
41 evaluations of employment impacts; and the source of funding for the rule or
42 regulation. For the purposes of this subdivision, a major rule or rule amendment is

1 one that is intended to significantly affect air quality or that imposes emission
2 limitations.

3 (b) The number of permits to operate or to construct, by type of industry, that are
4 issued and denied, and the number of permits to operate that are not renewed.

5 (c) Data on emission offset transactions and applications, by pollutant, during

7 permits for new or modified sources that were denied because of the unavailability
8 of emission offsets.

9 (d) The district's forecast of budget and staff increases proposed for the
10 following fiscal year, and projected for the next two fiscal years. Budget and staff
11 increases shall be related to existing programs and rules, and to new programs or
12 rules to be adopted during the following years. The budget forecast shall provide a
13 workload justification for proposed budget and staff changes and shall identify any
14 cost savings to be achieved by program or staff changes. The budget forecast shall
15 include increases in permit fees and other fees proposed for the following fiscal
16 year and projected for the next two fiscal years.

17 (e) An identification of the source of all revenues collected that are used, or
18 proposed to be used, to finance activities related to either stationary or
19 nonstationary sources.

20 ~~(f) A response to audit recommendations pursuant to Section 40453. The~~
21 ~~response shall include proposed statutory changes needed to implement the~~
22 ~~recommendations.~~

23 ~~(g) The results of the clean fuels program as specified in Section 40448.5. This~~
24 ~~element of the report shall be submitted biennially.~~

20 **Health & Safety Code § 50519 (amended). Residential hotels**

21 SEC. _____. Section 50519 of the Health and Safety Code is amended to read:

22 50519. (a) The Legislature finds and declares that the need for decent housing
23 among individuals of very low and low income is great, and that residential hotels
24 are often the only form of housing affordable to these individuals. Many
25 residential hotels are in poor condition and in need of rehabilitation, and many are
26 being demolished or converted to other uses. The state can play an important role
27 in preserving the existence and improving the quality of this housing resource
28 through sponsoring demonstration projects which will enable local sponsors to
29 acquire, rehabilitate, maintain, or otherwise protect and improve residential hotels
30 as a housing resource for persons of very low and low income. The demonstration
31 projects should be undertaken and designed so as to demonstrate the feasibility of
32 innovative methods of protecting and improving residential hotels and of
33 improving their habitability while assuring their continued availability to persons
34 of very low and low income.

35 (b) The following definitions govern the construction of this section:

36 (1) "Residential hotel" means any building containing six or more guestrooms or
37 efficiency units, as defined by Section 17958.1, intended or designed to be used, or
38 which are used, rented, or hired out, to be occupied, or which are occupied, for
39 sleeping purposes by guests, which is also the primary residence of those guests,
40 but does not mean any building containing six or more guestrooms or efficiency

1 units, as defined by Section 17958.1, which is primarily used by transient guests
2 who do not occupy that building as their primary residence.

3 (2) "Sponsor" means a local government or nonprofit housing sponsor.

4 (3) "Persons of low income" shall have the same meaning as persons of low
5 income as defined in Section 50093 of the Health and Safety Code.

6 (c) The department, in conjunction with the State Fire Marshal, shall develop a
7 model code for the rehabilitation of residential hotels. The department shall adopt
8 the code on or before January 1, 1981. The code need not be adopted by any city,
9 county, or city and county. However, those entities may adopt all or part of the
10 code as an alternative to the requirements of the State Housing Law, Part 1.5
11 (commencing with Section 17910) of Division 13, as that law applies to residential
12 hotels.

13 The purpose of the standards shall be to protect the health, safety, and welfare of
14 the occupants of those residential hotels, to allow the economically feasible
15 rehabilitation of those residential hotels, and to assure to the extent possible the
16 preservation of those residential hotels as housing for very low and low-income
17 persons.

18 (d) The agency shall develop a program of financing and loan insurance for the
19 purpose of assisting the rehabilitation and acquisition of residential hotels serving
20 the housing needs of very low and low-income persons by appropriate sponsors,
21 and shall implement that program on or before January 1, 1981.

22 In the event that the agency is unable to implement that program, it shall report
23 to the Legislature on or before July 1, 1981, the reasons for its inability to
24 implement that program, and recommend methods by which the agency could
25 implement that program.

26 (e) The department shall contract, subject to the availability of federal funds,
27 with selected sponsors to acquire, rehabilitate, maintain, or otherwise protect and
28 improve residential hotels as housing for persons of low income. The contracts
29 may provide for grants or loans at an interest rate which the department determines
30 will facilitate the present and future use of residential hotels as housing for persons
31 of very low and low income. Subject to the availability of funds, the department
32 shall contract for the preservation and improvement of at least one residential hotel
33 in a rural area. Subject to restrictions on funds received, the department shall give
34 first priority to residential hotels financed or acquired with assistance from the
35 agency pursuant to subdivision (d).

36 (f) In connection with contracts let pursuant to subdivision (e), the department
37 shall fix, and may alter from time to time, a schedule of rents as may be necessary
38 to assure affordable rents for persons of low income in residential hotels assisted
39 by funds made available under subdivision (e), and to the extent consistent with
40 the maintenance of the financial integrity of the sponsor of the project and with the
41 requirements for repayment of any funds loaned as established by the department.
42 No local government or nonprofit housing sponsor receiving funds through the
43 provisions of subdivision (e) shall alter rents without the prior permission of the

1 department, which permission shall be given only if the sponsor demonstrates that
2 the alteration is necessary to defray necessary operating costs and to avoid
3 jeopardizing the fiscal integrity of the sponsor or to maintain affordable rents to
4 the residents in the project. If the department does not act upon a request for a rent
5 increase within 60 days, the increase shall be deemed approved. In connection
6 with contracts authorized by subdivision (e), the department may determine
7 standards for the selection by sponsors of the tenants for units in projects funded
8 by contracts pursuant to subdivision (e). The authority of the department to fix and
9 alter rents pursuant to this subdivision shall apply only to units within residential
10 hotels which receive assistance pursuant to subdivision (e).

11 ~~(g) On or before January 1, 1983, the department shall conduct an evaluation of~~
12 ~~the various projects funded pursuant to subdivision (e), and of the various methods~~
13 ~~of preserving and improving residential hotels as a housing resource for persons of~~
14 ~~low income, and will report on these projects and methods to the Legislature.~~

15 ~~(h) On or before January 1, 1983, the department shall report to the Legislature~~
16 ~~on the extent of the use of residential hotels as housing for persons of low income,~~
17 ~~and on possible state actions to further the use of residential hotels and to improve~~
18 ~~existing conditions in residential hotels in a manner designed to maintain their use~~
19 ~~as housing for persons of low income.~~

20 **Comment.** Section 50519 is amended to delete reference to obsolete reporting requirements.
21 The required reports were to be completed by January 1, 1983.

25 ~~report to the Legislature evaluating the extent and causes of homelessness in the~~
26 ~~state, identifying who is homeless and what existing efforts are being made to~~
27 ~~address the problem, and recommending appropriate state action which will help~~
28 ~~resolve the problem. It is the intent of the Legislature, that the department utilize~~
29 ~~and rely upon existing sources of information about the homeless, to the maximum~~
30 ~~extent feasible, and devote a majority of the amount appropriated by subdivision~~
31 ~~(c) of Section 7 of the act which enacted this section to develop recommendations~~
32 ~~of appropriate solutions to resolve that problem. The department shall thereafter~~
33 ~~include in its statewide housing plan a review of housing assistance policies, goals,~~
34 ~~and objectives affecting the homeless.~~

35 **Comment.** Section 50524 is amended to delete reference to an obsolete reporting requirement.
36 The required report was to be completed by March 1, 1985.

16 **Health & Safety Code § 116360 (amended). Cryptosporidium and giardia**

17 SEC. ____ . Section 116360 of the Health and Safety Code is amended to read:

18 116360. (a) The department shall take all reasonable measures it determines
19 necessary to reduce the risk to public health from waterborne illnesses in drinking
20 water caused by cryptosporidium and giardia, to the extent those micro-organisms
21 are not yet able to be adequately controlled through existing drinking water
22 treatment and other management practices.

23 (b) The department shall directly conduct, or order the state's public water
24 systems to conduct, comprehensive sanitary surveys, as present resources permit,
25 to identify risks to public health from cryptosporidium and giardia.

26 (c) To thoroughly address the public health risks currently posed by
27 cryptosporidium, in particular, the department shall ensure that its initial
28 cryptosporidium action plan, that has been circulated to public water systems
29 serving more than 1,000 service connections, is comprehensively implemented and
30 shall devise and implement necessary strategies for protecting the health of
31 individuals served by smaller public water systems from cryptosporidium
32 exposure.

33 ~~(d) On or before January 1, 1998, the department shall submit a report to the~~
34 ~~Chairperson of the Assembly Environmental Safety and Toxic Materials~~
35 ~~Committee and of the Senate Toxics and Public Safety Management Committee.~~
36 ~~The report shall do all of the following:~~

37 ~~(1) Describe the department's action to reduce human exposure to~~
38 ~~cryptosporidium and giardia from California drinking water and the extent to~~
39 ~~which implementation of the cryptosporidium action plan for larger water systems,~~
40 ~~and alternative actions for smaller water systems, have reduced the threat to public~~
41 ~~health from cryptosporidium contamination.~~

1 (2) Recommend additional actions necessary to adequately protect public health
2 from waterborne diseases in California drinking water caused by micro-organisms,
3 including any legislative changes necessary to ensure adequate protection of the
4 public from exposure to cryptosporidium and other disease-causing micro-
5 organisms in drinking water.

6 (3) Describe the progress of the California public water systems in the
7 implementation of the cryptosporidium-related requirements of the federal
8 Information Collection Rule, as set forth in the Federal Register on February 10,
9 1994, and the department's progress in implementing the cryptosporidium-related

14 **Health & Safety Code § 120865 (repealed). HIV programs**

15 SEC. ____. Section 120865 of the Health and Safety Code is repealed.

16 120865. (a) The department, in consultation with the State Department of
17 Alcohol and Drug Programs, shall review existing programs administered by the
18 department, the State Department of Alcohol and Drug Programs, or both that
19 provide services to persons with AIDS or ARC or persons at risk of becoming
20 infected with HIV to identify whether there are unmet needs in targeting these
21 programs to substance abusers, racial and ethnic minority populations, and
22 women. In reviewing the existing programs, the department shall consider the
23 provision of care by the existing programs outside of a general acute care hospital
24 setting to substance abusers, racial and ethnic minority populations, and women by
25 taking into account the current availability of beds outside of a hospital setting, the
26 availability of those beds to substance abusers, racial and ethnic minority
27 populations, and women, and the projected need for additional beds outside of a
28 hospital setting for substance abusers, racial and ethnic minority populations, and
29 women.

30 (b) The department shall take into account the unmet needs of substance abusers,
31 racial and ethnic minority populations, and women as identified pursuant to
32 subdivision (a) in its planning and development of programs that provide services
33 to persons with AIDS and ARC.

34 (c) The department shall report its findings pursuant to this section on or before
35 April 1, 1991. The report shall include, but not be limited to, recommendations
36 suggesting programmatic changes deemed appropriate by the department that
37 would better meet the needs of substance abusers, racial and ethnic minority
38 populations, and women with, or at risk of becoming infected with, HIV, and the
39 fiscal considerations for implementing the recommendations.

9 (c) ~~These target areas shall be described by census tract and shall be selected~~
10 ~~based on the prevalence of the following factors:~~

11 (1) ~~Older housing.~~

12 (2) ~~Lead-emitting industry.~~

13 (3) ~~History of heavy automobile traffic.~~

14 (4) ~~Use or disposal of hazardous materials or waste.~~

15 (5) ~~Populations where cultural or ethnic factors or both may result in a higher~~
16 ~~risk of ingestion of lead.~~

17 (6) ~~Population of children between the ages of 12 months and 6 years.~~

18 **Comment.** Section 124135 is repealed as obsolete. The required selection of target areas was to
19 be completed by July 1, 1987.

20 **Health & Safety Code § 124140 (repealed). Childhood lead screening program**

22 124140. ~~By October 1, 1988, the department shall complete a screening program~~
23 ~~for childhood lead in the targeted areas identified pursuant to Section 124135, and~~
24 ~~in other areas where scientifically indicated. Further, where environmental~~
25 ~~abatement is found to be indicated, the department shall carry out field trials of~~
26 ~~alternative abatement technologies.~~

27 **Comment.** Section 124140 is repealed as obsolete. The required screening was to be completed

31 124145. ~~On January 1, 1989, the department shall submit a report to the relevant~~
32 ~~legislative policy committees, and to the relevant legislative budget subcommittees~~
33 ~~for their review, describing the results of the screening program, the significance~~

38 **Health & Safety Code § 124150 (amended). Additional findings**

39 SEC. _____. Section 124150 of the Health and Safety Code is amended to read:

1 124150. The Legislature hereby finds and declares that the activities conducted
2 by the department pursuant to Sections Section 124130, 124135, and 124140 have
3 confirmed and supported the findings specified in Section 124125 and, in addition,
4 have resulted in the following findings:

5 (a) Very few children are currently tested for elevated blood lead levels in
6 California. The lead registry established pursuant to Section 124130 has been
7 effective at identifying incidents of occupational lead poisoning; however, because
8 childhood lead screening is not now required in California, the registry is unable to
9 serve as the exclusive mechanism to identify children with elevated blood lead
10 levels. Additional blood lead screening needs to be done to identify children at
11 high risk of lead poisoning.

12 (b) Based on emerging information about the severe deleterious affects effects of
13 low levels of lead on children's health, the lead danger level is expected to be
14 lowered from 25 to 15 micrograms of lead per deciliter of human blood.

15 (c) Lead poisoning poses a serious health threat for significant numbers of
16 California children. Based on lead registry reports and targeted screening results,
17 the department has estimated that tens of thousands of California children may be
18 suffering from blood lead levels greater than the danger level.

19 (d) The implications of lead exposure to children and pregnant women from lead
20 brought home on the clothing of workers is unknown, but may be significant.

21 (e) Levels of lead found in soil and paint around and on housing constitute a
22 health hazard to children living in the housing. No regulations currently exist to
23 limit allowable levels of lead in paint surfaces in California housing.

24 **Comment.** Section 124150 is amended to reflect the repeal of former sections 124135 and
25 124140.

26 **Health & Safety Code § 124160 (amended). Lead poisoning prevention**

27 SEC. _____. Section 124160 of the Health and Safety Code is amended to read:

28 124160. The department shall continue to direct the Childhood Lead Poisoning
29 Prevention Program to implement a program to identify and conduct medical
30 followup of high-risk children, and to establish procedures for environmental
31 abatement and followup designed to reduce the incidence of excessive childhood
32 lead exposures in California. In implementing this program, the department shall
33 utilize its own studies, as well as relevant information from the scientific literature
34 and childhood lead poisoning programs from outside California. The particular
35 activities specified in this section shall be initiated by January 1, 1990, and
36 completed on or before January 1, 1993. The program shall include at least all of
37 the following components:

38 (a) Lead screening. The department shall:

39 (1) Design and implement at least one pilot blood lead screening project
40 targeting children at high risk of elevated blood lead levels. In designing any pilot
41 projects, the department shall give special consideration to conducting screening
42 through the Child Health Disability and Prevention Program.

1 (2) Conduct a pilot screening project to evaluate blood lead levels among
2 children of workers exposed to lead in their occupations.

3 (3) Develop and issue health advisories urging health care providers to conduct
4 routine annual screening of high-risk children between the ages of one and five
5 years of age.

6 ~~(4) Study the options for, and feasibility of, implementing a mandatory~~
7 ~~childhood blood lead testing program in California. The study shall include an~~
8 ~~evaluation of the voluntary response and cooperation of health care providers to~~
9 ~~the health advisory program specified in paragraph (3). The results of this study~~
10 ~~shall be submitted to the Legislature by July 1, 1991.~~

11 (5) Develop a program to assist local health departments in identifying and
12 following up cases of elevated blood lead levels.

13 ~~(6) (5) Develop and conduct programs to educate health care providers regarding~~
14 ~~the magnitude and severity of, and the necessary responses to, the childhood lead~~
15 ~~poisoning problem in California.~~

16 (b) The department, in consultation with the Department of Housing and
17 Community Development, shall adopt regulations governing the abatement of lead
18 paint in and on housing, including, but not limited to, standards for enforcement,
19 testing, abatement, and disposal.

20 (c) The department shall conduct a study to evaluate whether abatement of lead
21 in soil is effective at reducing blood lead levels in children.

22 **Comment.** Section 124160 is amended to delete reference to an obsolete reporting
23 requirement. The required report was to be completed by July 1, 1991.

37 ~~adolescents.~~

38 ~~(d) An assessment of the effectiveness of the counseling services in reducing the~~
39 ~~incidence of high-risk pregnant and parenting adolescents who are abusing alcohol~~
40 ~~or drugs, or a combination of alcohol and drugs.~~

41 ~~(e) The effectiveness of the component of other health programs aimed at~~
42 ~~reducing substance use among pregnant and parenting adolescents.~~

1 (f) ~~The need for an availability of substance abuse treatment programs in the~~
2 ~~program areas that are appropriate, acceptable, and accessible to teenagers.~~

3 (g) ~~This section shall become operative on July 1, 1994.~~

16 PUBLIC RESOURCES CODE

17 **Pub. Res. Code § 612.5 (amended). Soil survey**

18 SEC. _____. Section 612.5 of the Public Resources Code is amended to read:

19 612.5. (a) The Legislature hereby finds and declares all of the following:

20 (1) It is in the state's public interest to have an accurate inventory of the state's
21 soil resources.

22 (2) In California, the United States Soil Conservation Service has been
23 responsible for undertaking soil surveys and soils information for many of
24 California's agricultural counties is outdated or unavailable.

25 (3) Information on soils is needed for agricultural management, water and soil
26 conservation activities, engineering and land use planning, and state and local
27 policy decisions. Completion of the California Farmland Mapping and Monitoring
28 Program is contingent upon availability of accurate, modern soil surveys.

29 (4) State funding of soil surveys has been limited to soil vegetation surveys on
30 wildlands and no state contributions have been made toward the completion of
31 modern soil surveys in California on cropland. In recent years, every state with
32 incomplete soil surveys on farmland, except California, has cost-shared with the
33 United States Soil Conservation Service to complete those surveys.

34 (5) Federal funding for the soil survey program of the United States Soil
35 Conservation Service has been declining in real dollars in the past several years
36 and is projected to be further reduced under the requirements of the Gramm-
37 Rudman-Hollings Deficit Reduction Act.

38 (6) Therefore, it is in California's interest to authorize the department to assist
39 the United States Soil Conservation Service with the completion of soil surveys.

40 (b) The department shall provide financial assistance to the United States Soil
41 Conservation Service to undertake or complete soil surveys in areas of this state

1 where the surveys have not been completed, including, but not limited to, portions
2 of the Counties of San Joaquin, Yuba, Colusa, Butte, Fresno, Kern, Tulare,
3 Stanislaus, and Lassen. Financial assistance shall be applied to field work which
4 includes on-site soils mapping, report writing, manuscript preparation, and final
5 correlation of soils data.

6 (c) In allocating funds for completion of soil surveys in the United States Soil
7 Conservation Service soil survey areas in California, the department shall consider
8 criteria which includes, but are not limited to, all of the following:

- 9 (1) Voids in important farmland maps.
- 10 (2) Rate and type of land use changes.
- 11 (3) Extent of erosion, alkalinity, and other soil resource problems.
- 12 (4) Farm-gate value of agricultural production.
- 13 (5) Specific soil-related problems.
- 14 (6) Status of ongoing soil surveys.
- 15 (7) Extent of cropland in each county.
- 16 (8) Availability of local funding or other support.

17 (d) ~~The department shall make a report on the status of the soil survey program~~
18 ~~to the Legislature no later than February 1, 1989.~~

27 ~~instrumentation capable of monitoring geophysical and geochemical phenomena~~
28 ~~associated with earthquakes in the region. These data shall be analyzed~~
29 ~~continuously to determine if precursory anomalies can be identified with sufficient~~
30 ~~certainty to make a short-term prediction. The department shall not duplicate any~~
31 ~~of the ongoing efforts of the United States Geological Survey or any public or~~
32 ~~private college or university in the development of this system.~~

33 ~~(c) In meeting its obligations under this chapter, the department shall develop, in~~
34 ~~cooperation with the United States Geological Survey, a plan for completion of the~~
35 ~~Parkfield instrumentation network. The plan shall provide for all of the following:~~

36 ~~(1) Augmentation of monitoring instruments with the goal of detecting~~
37 ~~precursors of the Parkfield characteristic earthquake.~~

38 ~~(2) Operation by the department of a remote data review station in Sacramento~~
39 ~~which will provide state scientists with data from the Parkfield prototype~~
40 ~~earthquake prediction system and other data, as required, to advise the Office of~~
41 ~~Emergency Services of the occurrence of precursors and verification of the~~
42 ~~predicted event.~~

1 ~~(3) Advising the United States Geological Survey, the Office of Emergency~~
2 ~~Services, the Seismic Safety Commission, and the California Earthquake~~

25 ~~system. Possible applications include automated shutdown of pipelines,~~
26 ~~transportation systems, computer systems, and other vital lifelines which would be~~
27 ~~damaged in an earthquake.~~

28 ~~(4) Assessment of the value of warnings to various elements of society,~~
29 ~~including public officials, schools, hospitals, police, fire stations, private industry,~~

1 or the addition of a new part, the Franchise Tax Board itself is authorized to grant
2 relief as set forth in subdivision (b) from the requirements of the new statutory
3 provision in a manner as provided in subdivision (c).

4 (b) The relief provided in subdivision (a) may be granted only for the first
5 taxable year for which the new statutory provision is operative and only when
6 substantial unintentional noncompliance with the new provision has occurred by a
7 class of affected taxpayers. The relief is limited to waiving penalties or perfecting
8 elections and may be granted only to taxpayers who timely paid taxes and other
9 required amounts shown on the return consistent with the election and who timely
10 filed their return (with regard to extension).

11 (c) The relief granted in this section shall, upon the recommendation of the
12 executive officer of the Franchise Tax Board, be made by resolution of the

27 (commencing with Section 23001), includes any case in which the taxpayer filed a
28 water’s-edge contract with a timely filed original return and timely paid all taxes
29 and other required amounts shown on the return consistent with the water’s-edge
30 election, but where the taxpayer’s election is or might be invalidated by reason of
31 the act or omission of an affiliated corporation that is not the parent or a subsidiary
32 of the taxpayer. In that case, notwithstanding anything to the contrary in this
33 section, relief shall be deemed granted to validate the taxpayer’s water’s-edge
34 election, conditioned only upon an agreement by the affiliated corporation to either
35 (A) file a water’s-edge contract and pay all taxes and other required amounts
36 consistent with that election, or (B) waive any right, with respect to any taxable
37 year for which the corporation did not make a water’s-edge election on its own
38 timely filed return, to determine its income derived from or attributable to sources
39 within this state pursuant to that election, whichever measure produces the greater
40 amount of tax.

41 (e) This section shall apply to any Franchise Tax Board resolution adopted after

17 ~~(g)~~ (f) This section shall apply in the same manner and with the same force and
18 effect and to the full extent as if this section had been incorporated in full into

5 declaration with the court stating the specific factual and legal basis for such a
6 reduction or dismissal and the court shall make specific findings on the record of
7 its ruling and the reasons therefor.

9 ~~(1) Document the amount of serious crime committed by a relatively small~~
10 ~~number of serious habitual offenders.~~

11 ~~(2) Provide statistical documentation regarding the total number of juveniles in~~
12 ~~the program, the types of offenses committed, the manner in which cases are~~
13 ~~disposed, and a statistical profile of the average juvenile who qualifies for the~~
14 ~~program.~~

15 ~~(3) Evaluate program costs.~~

15 **Welf. & Inst. Code § 4026 (repealed). Mentally disordered patients in long-term healthcare**
16 **facilities**

17 SEC. _____. Section 4026 of the Welfare and Institutions Code is repealed.

18 4026. (a) The Legislature finds and declares all of the following:

19 (1) That there is a severe shortage of adequate facilities for mentally disordered
20 patients of all ages since the closing of the 48 out of 94 facilities in the mental
21 illness program in 1968.

22 (2) That most of these mentally disordered people, who do not have families and
23 money, are turned away from any treatment or therapy from the state and are
24 forced to be sent out on the street.

25 (3) That these mentally disordered patients are not receiving the care that they
26 are entitled to.

27 (4) That this shortage is demonstrated by the current practice of placing mentally
28 disordered patients in jails and in transferring them from county to county.

29 (5) That mentally disordered patients are currently displacing potential residents
30 over the age of 55 at our existing long-term health care facilities.

31 (6) That since the closing of these mental health facilities, the counties have been
32 instructed by the State Department of Mental Health to commit the mentally
33 disordered to skilled and long-term care nursing facilities.

34 (7) That when long-term care facilities house both mentally disordered patients
35 and seniors, severe disruption and stress results, particularly in the nonmentally
36 disordered senior population.

37 (8) That in order to meet the needs of seniors residing in long-term health care
38 facilities, as well as mentally disordered patients, it would be of immense value to
39 preclude mentally disordered persons from residing in long-term health care
40 facilities, while, at the same time, ensuring that adequate facilities exist for the
41 housing of mentally disordered patients.

1 (b) ~~The State Department of Mental Health shall determine the extent of the~~
2 ~~problem, and identify the number of mentally disordered patients who are in need~~
3 ~~of long-term health care.~~

4 ~~The department also shall determine how many people, whose primary illness is~~
5 ~~a mental disorder, are residing in long-term health care facilities, as defined in~~
6 ~~Section 1418 of the Health and Safety Code. If deemed appropriate, the~~
7 ~~department shall ask that any person whose primary illness is a mental disorder be~~
8 ~~precluded from residing in long-term health care facilities, if the residence is not in~~
9 ~~accordance with the then current licensing requirements.~~

10 ~~The department also shall identify the extent of the shortage of long-term health~~
11 ~~care services and programs and make a preliminary estimate of costs of providing~~
12 ~~long-term health care services and programs for those patients. Those services and~~
13 ~~programs shall be ready to serve mentally disordered persons prior to any mentally~~
14 ~~disordered patient being denied admission to, or discharged from, the health care~~
15 ~~facility, when the denial or discharge has been made to comply with the then~~
16 ~~current licensing requirements.~~

17 ~~The department shall report the results of its investigation to the Governor and~~
18 ~~the Legislature by January 1, 1990, with recommendations on the desired course of~~
19 ~~action to alleviate any problems identified resulting from inappropriate placement~~
20 ~~of mentally disordered persons in these facilities.~~

21 **Comment.** ~~Section 4026 is repealed as obsolete. The required report was to be completed by~~
22 ~~January 1, 1990.~~

23 **Welf. & Inst. Code § 4390 (amended). School-based early mental health intervention**

24 SEC. ____ . Section 4390 of the Welfare and Institutions Code is amended to read:
25 4390. The Legislature finds that an evaluation of program effectiveness is both
26 desirable and necessary and accordingly requires the following:

27 (a) No later than June 30, 1993, and each year thereafter through the term of the
28 grant award, each local education agency that receives a matching grant under this
29 part shall submit a report to the director that shall include the following:

30 (1) An evaluation of the effectiveness of the local educational agency in
31 achieving stated goals.

32 (2) A description of the problems encountered in the design and operation of the
33 school-based early mental health intervention and prevention services program,
34 including, but not limited to, identification of any federal, state, or local
35 regulations that impeded program implementation.

36 (3) The number of eligible pupils served by the program.

37 (4) The number of additional eligible pupils who have not been served.

38 (5) An evaluation of the impact of the school-based early mental health
39 intervention and prevention services program on the local educational agency and
40 the children completing the program. The program shall be deemed successful if at
41 least 75 percent of the children who complete the program show an improvement
42 in at least one of the four following areas:

1 (A) Learning behaviors.

2 (B) Attendance.

3 (C) School adjustment.

4 (D) School-related competencies. Improvement shall be compared with
5 comparable children in that school district that do not complete or participate in
6 the program.

7 (6) An accounting of local budget savings, if any, resulting from the
8 implementation of the school-based early mental health intervention and
9 prevention services program.

10 (7) A revised plan of how the proposed school-based early mental health
11 intervention and prevention services program will be continued after the state
12 matching grant has expired, including a list of cooperative entities that will assist
13 in providing the necessary funds and services. Beginning in 1993, this shall, to the
14 extent information is provided by the local mental health department, include a
15 description of the availability of federal financial participation under Title XIX of
16 the federal Social Security Act (42 U.S.C. 1396 and following) through a
17 cooperative agreement or contract with the local mental health department. The
18 county office of education may submit the report on the availability of federal
19 financial participation on behalf of the participating local education agencies with
20 the county. In any county in which there is an interagency children's services
21 coordination council established pursuant to Section 18986.10, a report submitted
22 pursuant to this paragraph shall be submitted to the council for its review and
23 approval.

24 ~~(b) No later than April 30, 1994, the director shall, through grants, contracts, or~~
25 ~~cooperative agreements with independent organizations, provide for an evaluation~~
26 ~~of the effectiveness of matching grants awarded under Chapter 2 (commencing~~
27 ~~with Section 4380). This evaluation shall allow for the comparison of the impact~~
28 ~~of different models of school-based mental health early intervention and~~
29 ~~prevention services programs on the local educational agency and on the children~~
30 ~~participating in the program. That comparison shall be done with comparable~~
31 ~~schools or school districts that operate without the school-based mental health~~
32 ~~early intervention and prevention services program.~~

33 ~~(c) No later than June 30, 1994, the director shall submit a report to the~~
34 ~~Governor, the Legislature, and the Secretary of Child Development and Education~~
35 ~~summarizing the reports submitted under subdivision (a) and reporting the results~~
36 ~~of the evaluation described in subdivision (b).~~

37 **Comment.** Section 4390 is amended to delete an obsolete evaluation requirement and an
38 obsolete reporting requirement. The required evaluation was to be completed by April 30, 1994.
39 The required report was to be completed by June 30, 1994.

40 **Welf. & Inst. Code § 4506 (repealed). Staffing standards**

21 ~~Department of Developmental Services and regional centers in providing services~~
22 ~~and supports to persons with developmental disabilities and for determining and~~
23 ~~monitoring the transfer of persons with developmental disabilities living in~~

42 contains proven flaws or defects which significantly contribute to the failure to
43 meet those requirements.

1 (j) A provider or third party's eligibility to bill claims electronically by using
2 software programs made available pursuant to this section shall be governed by

35 **Welf. & Inst. Code § 14105.15 (amended). Payment systems**

36 SEC. _____. Section 14105.15 of the Welfare and Institutions Code is amended to
37 read:

38 14105.15. (a) (1) In determining rates of reimbursement for inpatient hospital
39 services the department shall use the reimbursement policy existing on June 29,
40 1982. The director shall have authority to modify this reimbursement policy. The
41 director shall implement a new reimbursement policy of peer grouping of hospitals
42 through the promulgation of emergency regulations after required federal

1 approvals are obtained. The department may adjust interim payment percentages
2 to hospitals in order to approximate final settlement and may control or freeze
3 charges in order to carry out this section.

4 (2) This section shall cease to apply to a hospital when the department enters
5 into a contract, pursuant to Article 2.6 (commencing with Section 14081), either
6 with that hospital or with other hospitals to the exclusion of that hospital for
7 services covered under the contracts.

8 (b) Notwithstanding any other provision of law, the department may make
9 interim rate adjustments and also implement collection procedures to recover
10 overpayments to hospitals, at tentative and final settlement. These recoveries shall
11 be based on audits or examinations made by or on behalf of the department
12 pursuant to Sections 10722 and 14170, including the application of Sections
13 51536, 51537, and 51539 of Title 22 of the California Administrative Code at
14 tentative and final settlement. Recovery may be made whether or not appeals by
15 the hospitals are pending. Collection of overpayments shall be made in accordance
16 with Section 14172.5.

17 (c) The amendment of this section made at the 1985 portion of the 1985-86
18 Regular Session of the Legislature does not constitute a change in, but is
19 declaratory of, the existing law. This declaration shall not apply to any lawsuits
20 filed on or before July 9, 1985.

21 ~~(d) It is the intent of the Legislature to evaluate alternative payment systems for
22 hospitals in health facility planning areas which are not closed for contracting
23 purposes and noncontracting hospitals in closed areas. The alternatives shall
24 include, but are not limited to, selective contracting, prospective payment systems,
25 or other feasible options. Any alternative payment system presented to the
26 Legislature shall include at least all of the following:~~

27 ~~(1) Payment adjustments which recognize the situation of hospitals serving a
28 disproportionate share of low-income patients with special needs.~~

29 ~~(2) The potential need for payment differentials between urban and rural
30 hospitals.~~

31 ~~(3) Alternative data bases, base years, and payment code weighting
32 considerations.~~

33 ~~(4) Potential outliers or exemptions, or both, from prospective payment
34 regarding patient cost, length of stay, or type of service.~~

35 ~~(5) Facility-specific considerations.~~

36 ~~(6) Appeals processes and updating mechanisms.~~

37 (e) In order to evaluate the alternatives, the department may select a contractor to
38 conduct a study and prepare a report which shall include preparation of a general
39 systems design of the alternatives and estimate costs of developing a detailed
40 system design of the recommended alternative. The alternatives shall include, but
41 not be limited to, the reduction of administrative costs to the department and
42 hospitals, incentives for hospitals to contain their costs, and the provision of
43 appropriate and timely payments to hospitals.

1 (f) The contractor and department shall solicit the cooperation and assistance of
2 the hospital industry and shall consider its recommendations throughout the course
3 of the study.

4 (g) The department may submit a report to the Legislature by January 31, 1989.

5 The report shall include the contractor's report prepared pursuant to subdivision
6 (e). The department's report shall contain, but shall not be limited to, information
7 on hospital structures and costs on file with the State Department of Health
8 Services, and financial and patient discharge data on file with the Office of
9 Statewide Health Planning and Development. The report shall include the
10 comments and recommendations of the hospital industry.

11 (h) No new payment system may be implemented without specific authorization
12 from the Legislature.

13 (i) (e) Notwithstanding any other provision of law, reimbursement for out-of-
14 state acute inpatient hospital services provided to Medi-Cal beneficiaries shall not
15 exceed the current statewide average of contract rates for acute inpatient hospital
16 services negotiated by the California Medical Assistance Commission or the actual
17 billed charges, whichever is less.

30 Therapeutic Drug Utilization Review System established by this article is cost-
31 effective and should be continued.

32 **Comment.** Section 14195.8 is repealed as obsolete. The required report was to be completed by
33 May 1, 1991.

34 **Welf. & Inst. Code § 14492 (repealed). Publicly operated health service delivery systems**

35 SEC. ____. Section 14492 of the Welfare and Institutions Code is repealed.

36 14492. In addition to other pilot programs established pursuant to this article, the
37 department also shall establish publicly operated health service delivery systems as
38 pilot programs, to determine whether high quality, comprehensive Medi-Cal
39 benefits can be provided at a reasonable cost on a prepayment basis in a public
40 service system. The department shall provide technical assistance to any county or

1 other public entity that desires to establish such a program. To the extent possible,
2 the department shall establish programs in both rural and urban areas.

3 Each publicly operated pilot program shall comply with the following:

4 (a) The program shall be publicly operated either by the department directly or
5 through contract with other public entities.

6 (b) The program may be regional in nature, extending beyond the boundaries of
7 any one county.

8 (c) The program shall enroll Medi-Cal recipients and be funded by the
9 department on a prepayment capitation basis determined in accordance with the
10 method for establishing capitation rates paid by the department to prepaid health
11 plans under this chapter for the same or similar care.

12 (d) The program shall provide the full range of Medi-Cal services required of
13 prepaid health plans and shall meet all statutory requirements and all regulatory
14 and contractual requirements established by the department for the program.

15 (e) The program shall emphasize the innovative use of health personnel
16 including midlevel medical, nursing and dental professionals in ambulatory
17 settings.

18 (f) Medi-Cal recipients enrolling in a pilot program pursuant to this section shall
19 be offered a choice of qualified primary care physicians employed by the program
20 to be the recipients' designated primary care physicians.

21 (g) One program shall include provision for the enrollment of low-income
22 persons who are not eligible for Medi-Cal as cash grant recipients. Such persons
23 shall be potentially eligible for medically needy or medically indigent status. The
24 expenditures by the Medi-Cal program for such enrollees, when taken together
25 with expenditures for medically needy and medically indigent persons in that
26 county who are not enrolled in the prepayment program, shall not exceed the
27 expenditures made by Medi-Cal for all medically needy and medically indigent
28 persons in that county during the 1977-78 fiscal year, as adjusted for cost of living
29 by the department.

30 The department shall establish standards of eligibility for low-income persons
31 who are potentially eligible for the medically needy or medically indigent status
32 and who wish to enroll in this pilot program. Such standards shall include a share
33 of the cost to be paid by such enrollees. The department shall also establish the
34 county's financial obligation for a portion of the cost of care of such enrollees.

35 The provision of Medi-Cal payment for persons potentially eligible for the
36 medically needy or medically indigent status who are enrolled in this pilot
37 program shall cease on December 31, 1982, unless the operation of this pilot
38 program is extended by the Legislature.

39 The department shall, by February 1, 1982, report to the Legislature and the
40 Governor concerning the effect of enrolling low-income persons who are
41 potentially eligible for the medically needy or medically indigent status. The report
42 shall determine any changes in the amount of state and county funds expended for
43 health care because low-income persons who are not required to become eligible

1 for the medically needy or medically indigent status are enrolled in a pilot project
2 and any changes in the categories of health services provided in the county
3 because low income persons who are not required to become eligible for the
4 medically needy or medically indigent status are enrolled in a pilot program.

5 **Comment.** Section 14492 is repealed as obsolete. The required project and report were to be
6 completed by December 31, 1982.

7 **Welf. & Inst. Code § 14499.5 (amended). Medi-Cal pilot project**

11 for the operation of one local pilot program. Special consideration shall be given to
12 approving a program contracted through county government in Santa Barbara
13 County.

14 (2) Notwithstanding the limitations contained in Section 14490, the director may
15 enter into, or extend, contracts with the local pilot program in Santa Barbara
16 County pursuant to paragraph (1) for periods that do not exceed three years.

17 (b) The establishment of a pilot program pursuant to this section shall be
18 contingent upon the availability of state and federal funding. The program shall

26 program, the amount of the state contract shall equal 95 percent of total projected
27 Medi-Cal expenditures for delivery of services and for administration based on
28 fee-for-service conditions in the program county. During the remaining years of
29 the pilot project Medi-Cal expenditures in the program county shall be no more
30 than 100 percent of total projected expenditures for delivery of services and for
31 administration based on any combination of the following paragraphs:

33 (2) The fee-for-service Medi-Cal experience in comparable counties or groups of
34 counties.

35 (3) Medi-Cal experience of the pilot project in the program county if, as
36 determined by the department, the scope, level, and duration of, and expenditures
37 for, any services used in setting the rates under this paragraph would be
38 comparable to fee-for-service conditions were they to exist in the program county
39 and would be more actuarially reliable for use in ratesetting than data available for
40 use in applying paragraph (1) or (2).

1 The projected total expenditure shall be determined annually according to an
2 acceptable actuarial process. The data elements used by the department shall be
3 shared with the proposed contractor.

4 (d) The director shall accept or reject the proposal within 30 days after the date
5 of receipt. If a decision is made to reject the proposal, the director shall set forth
6 the reasons for this decision in writing. Upon approval of the proposal, a contract
7 shall be written within 60 days. After signature by the local contractor, the State
8 Department of Health Services and the Department of General Services shall
9 execute the contract within 60 days.

10 (e) The director shall seek the necessary state and federal waivers to enable

13 implementation of the program.

14 (f) For purposes of Section 1343 of the Health and Safety Code, the Santa
15 Barbara Regional Health Authority shall be considered to be a county-operated
16 pilot program contracting with the State Department of Health Services pursuant
17 to this article, and notwithstanding any other provision of law, during the period
18 that this contract is in effect, the contractor shall be exempt from the provisions of
19 the Knox-Keene Health Care Service Plan Act of 1975, Chapter 2.2 (commencing

22 pilot program.

23 (g) Dental services may be included within the services provided in this pilot
24 program.

25 (h) Any federal demonstration funding for this pilot program shall be made
26 available to the county within 60 days upon notification of the award without the
27 state retaining any portion not previously specified in the grant application as
28 submitted.

29 (i)(1)(A) ~~Commencing January 1, 1996, the~~ The California Medical Assistance
30 Commission may negotiate exclusive contracts and rates on behalf of the
31 department with the Santa Barbara Regional Health Authority in the
32 implementation of this section.

33 (B) Contracts entered into under this article may be on a noncompetitive bid
34 basis and shall be exempt from Chapter 2 (commencing with Section 10290) of
35 Part 2 of Division 2 of the Public Contract Code. These contracts shall have no
36 force or effect unless approved by the Department of Finance.

37 (C) The department shall enter into contracts pursuant to this article, and shall be
38 bound by the terms and conditions related to the rates negotiated by the negotiator.

39 (2) The department shall implement this subdivision to the extent that the
40 following apply:

41 (A) Its implementation does not revise the status of the pilot program as a federal
42 demonstration project.

1 (B) Existing federal waivers apply to the pilot program as revised by this
2 subdivision, or the federal government extends the applicability of the existing
3 federal waivers or authorizes additional federal waivers for the implementation of
4 the program.

5 (3) The implementation of this subdivision shall not affect the pilot program's
6 having met any of the requirements of Part 3.5 (commencing with Section 1175)
7 of Division 1 of the Health and Safety Code and this division applicable to the
8 pilot program with respect to the negotiations of contracts and rates by the
9 department.

10 ~~(j) An independent evaluation of the program shall be conducted and a report~~
11 ~~submitted to the Legislature and the director by January 1, 1988. The independent~~
