

Second Supplement to Memorandum 2007-43

Technical and Minor Substantive Statutory Corrections: References to Recording Technology (Comments on Tentative Recommendation)

In CLRC Memorandum 2007-43, the staff reported that four sections in the draft recommendation in this study would be affected by enrolled bills that were awaiting signature by the Governor.

All of the enrolled bills have since been chaptered.

Two of the affected sections, Civil Code Section 3344.1 and Education Code Section 19323, were amended in a manner that did not bear on the Commission's recommended revisions. **The staff will revise the text of these two sections in the final recommendation to reflect the amendment of the sections.**

The other two sections, Health and Safety Code Sections 7150.5 and 7151.5, were repealed, and the text recommended for revision was not continued. 2007 Cal. Stat. ch. 629. **The staff will delete these two sections from the final recommendation.**

Respectfully submitted,

Steve Cohen
Staff Counsel
