Memorandum 2021-27

Fish and Game Law: Phase One Comments
(Cumulative Draft of Material Previously Reviewed)

In this study, the Commission\(^1\) has been directed by the Legislature to consider revision of the Fish and Game Code in order to make technical improvements to that law, without making any significant substantive change to the effect of the law.\(^2\)

In December 2018 the Commission approved a tentative recommendation that would recodify the existing Fish and Game Code in a proposed new Fish and Wildlife Code.\(^3\) After releasing the tentative recommendation, the Commission decided to divide public comment into two phases.\(^4\) Phase One would consist of comments on changes to the text of existing law. Phase Two would address the proposed organizational changes.

Thereafter, the Commission decided to include proposed changes to the text of existing law based on consideration of Phase One comments in a draft recommendation to revise the *existing* Fish and Game Code.\(^5\)

For continuing reference, attached is a cumulative draft of the material that the Commission has approved to date for inclusion in that draft recommendation. Also attached is a second cumulative document, identifying code sections for which the staff is seeking further information relating to a proposed textual change.

Respectfully submitted,

Steve Cohen
Staff Counsel

PROPOSED LEGISLATION

**Staff Note.** The proposed changes reflected in this cumulative draft have been provisionally approved by the Commission for inclusion in a draft recommendation that would propose multiple revisions of the Fish and Game Code.

**Comments.** A draft of an official Commission “Comment,” which would be included in any final recommendation, follows each revised code section in the cumulative draft. Courts have routinely held that the Commission’s Comments are evidence of legislative intent with regard to any legislation that implements a Commission recommendation.

The Commission welcomes public comment on any issue relating to the content of this draft or any other aspect of this study.

Comment. Section 70 is amended to make the section gender neutral.

Fish & Game Code § 398 (amended). Falconry
SEC. ___. Section 398 of the Fish and Game Code is amended to read:

398. The base year for determining the inflationary index applied to the fee established by Section 396 shall be the 1984–85 fiscal year, and the base year for determining the inflationary index to be applied to the fee established by Section 397 shall be the 1985–86 fiscal year.

Comment. Section 398 is amended to delete obsolete material.

Fish & Game Code § 456 (amended). Deer management
SEC. ___. Section 456 of the Fish and Game Code is amended to read:

456. The department shall biennially report to the Legislature and to the Fish and Game Commission on the progress that is being made toward the restoration and maintenance of California’s deer herds. The first report shall be submitted on or before October 1, 1989. The report shall include program activities regarding deer habitat, particularly addressing problems dealing with identification and preservation of critical deer habitat areas; the amount of revenue derived from the sale of deer tags during the two previous fiscal years; a list of expenditures during the two previous fiscal years and proposed expenditures during the current fiscal year; and a report of general benefits accrued to the deer resources as a result of the program.

Comment. Section 456 is amended to delete obsolete material.

Fish & Game Code § 711 (amended). Statement of legislative intent regarding funding
SEC. ___. Section 711 of the Fish and Game Code is amended to read:

711. (a) It is the intent of the Legislature to ensure adequate funding from appropriate sources for the department. To this end, the Legislature finds and declares that:
(1) The costs of nongame fish and wildlife programs shall be provided annually in the Budget Act by appropriating money from the General Fund, through nongame user fees, and sources other than the Fish and Game Preservation Fund to the department for these purposes.

(2) The costs of commercial fishing programs shall be provided out of revenues from commercial fishing landing fees, license fees, and other revenues, from reimbursements and federal funds received for commercial fishing programs, and other funds appropriated by the Legislature for this purpose.

(3) The costs of hunting and sportfishing programs shall be provided out of hunting and sportfishing revenues and reimbursements and federal funds received for hunting and sportfishing programs, and other funds appropriated by the Legislature for this purpose. These revenues, reimbursements, and federal funds shall not be used to support commercial fishing programs, free hunting and fishing license programs, or nongame fish and wildlife programs.

(4) The costs of managing lands managed by the department and the costs of wildlife management programs shall be supplemented out of revenues in the Native Species Conservation and Enhancement Account in the Fish and Game Preservation Fund.

(5) Hunting, sportfishing, and sport ocean fishing license fees shall be adjusted annually to an amount equal to that computed pursuant to Section 713. However, a substantial increase in the aggregate of hunting and sportfishing programs shall be reflected by appropriate amendments to the sections of this code that establish the base sport license fee levels. The inflationary index provided in Section 713 shall not be used to accommodate a substantial increase in the aggregate of hunting and sportfishing programs.

(6) The costs of a conservation and mitigation banking program, including, but not limited to, costs incurred by the department during its adoption of guidelines for, and the review, approval, establishment, monitoring, and oversight of, banks, shall be reimbursed from revenues of conservation and mitigation bank application fees imposed pursuant to Sections 1798.5, 1798.6, and 1799.

(b) The director and the Secretary of the Natural Resources Agency, with the department’s annual budget submittal to the Legislature, shall submit a report on the fund condition, including the expenditures and revenue, for all accounts and subaccounts within the Fish and Game Preservation Fund. The department shall also update its cost allocation plan to reflect the costs of program activities.

(c) For purposes of this article section, “substantial increase” means an increase in excess of 5 percent of the Fish and Game Preservation Fund portion of the department’s current year support budget, excluding cost-of-living increases provided for salaries, staff benefits, and operating expenses.

Comment. Subdivision (c) of Section 711 is amended to provide greater specificity without changing the substance of the provision.

(b) The state may recover damages in a civil action against any person or local agency which unlawfully or negligently takes or destroys any bird, mammal, fish, reptile, or amphibian protected by the laws of this state.
(c) The measure of damages is the amount which will compensate for all the detriment proximately caused by the taking or destruction of the birds, mammals, fish, reptiles, or amphibia.
(d) An action to recover damages under this section shall be brought in the name of the people of the state, in a court of competent jurisdiction in the county in which the cause of action arose. The State Water Resources Control Board shall be notified of, and may join in, any action brought under this section when the activities alleged to have caused the destruction of any bird, mammal, fish, reptile, or amphibian may involve either the unlawful discharge of pollutants into the waters of the state or other violation of Division 7 (commencing with Section 13000) of the Water Code.
(e) This section does not apply to persons or local agencies engaged in agricultural pest control, to the destruction of fish in irrigation canals or works or irrigation drainages, or to the lawful destruction of a bird or mammal killed while damaging crops as provided by law.
(f) No damages may be recovered against a local agency pursuant to this section if civil or administrative penalties are assessed against the local agency for the same detriment pursuant to Division 7 (commencing with Section 13000) of the Water Code.
(g) Any recovery or settlement of money damages, including, but not limited to, civil penalties, arising out of any civil action filed and maintained by the Attorney General in the enforcement of this section shall be deposited by the department in the subaccounts of the Fish and Wildlife Pollution Account in the Fish and Game Preservation Fund as specified in Section 13011.
(h) For purposes of this section, “local agency” includes any city, county, city and county, district, public authority, or other political subdivision.

Newly designated subdivision (c) is amended to make clear that the measure of damages for unlawful or negligent take or destruction can include the detriment caused by taking, even if the animal is not destroyed.
Newly designated subdivision (e) is amended to eliminate an ambiguous use of the phrase “as provided by law.”
Newly designated subdivision (f) is amended to make clear that the provision applies to both judicial and administrative penalties.

2584. (a) Upon an actionable violation, the department shall consult, as to the appropriate civil or criminal remedy, with the district attorney in the jurisdiction where the violation was alleged to have occurred. Before proceeding with a civil action, the department shall seek the concurrence of the Attorney General.

(b) The director shall appoint a qualified referee or hearing board, composed of one or any combination of the following persons:

1. A qualified hearing officer, as defined in subdivision (a) of Section 2580.
2. A retired judge of the Superior Court who is knowledgeable in fish and wildlife law.
3. A qualified neutral referee, appointed upon petition to the Superior Court in which the violation was alleged to have occurred.

failures to act that constitute a basis for a civil administrative penalty and the amount of the proposed civil administrative penalty. The complaint shall be served by personal service or certified mail and shall inform the person so served that a hearing shall be conducted within 60 days after the person has been served, unless the person waives the right to a hearing. If the person waives the right to a hearing, the department shall issue an order setting liability in the amount proposed in the complaint. If the person has waived the right to a hearing or if the department and the person have entered into a settlement agreement, the order shall be final.

(d) Any hearing required under this section shall be conducted by a referee or hearing board according to the procedures specified in Sections 11507 to 11517, inclusive, of the Government Code, except as otherwise provided in this section. In making a determination, the hearing officer may consider the records of the department in the matter, the complaint, and any new facts brought to his or her attention by that person. The hearing officer shall be the sole trier of fact as to the existence of a basis for liability under Section 2582 or 2583. (e) The director may assess the civil administrative penalty, and may reduce the amount, or not impose any assessment, of civil administrative penalties based upon the nature, circumstances, extent, and gravity of the prohibited acts alleged, and the degree of culpability of the violator; or the director may enter into a settlement agreement with the person in the best interests of the state or confirm the amount of civil administrative penalties contained in the complaint. If the director reduces the amount of the civil administrative penalty, does not impose the civil administrative penalty, or enters into a settlement agreement, the director shall seek the recommendation of the hearing officer and enter into the records of the case the reasons for that action, including the hearing officer’s recommendation. The decision of the director assessing the civil administrative penalty is final. The proposed decision is a public record and shall be served upon the person. The director may approve the proposed decision in its entirety, or the director may reduce the proposed penalty and adopt the balance of the proposed decision.

(f) Upon the final assessment of the civil administrative penalty, the department shall issue an order setting the amount of the civil administrative penalty to be imposed. An order setting civil liability an administrative penalty under this section becomes effective and final upon the issuance thereof, and payment shall be made within 30 days of issuance. Copies of the order shall be served by personal service or by certified mail upon the person served with the complaint and upon other persons who appeared before the director and requested a copy. Copies of the order shall be provided to any person within 10 days of receipt of a written request from that person.
(g) Within 30 days after service of a copy of an order setting the amount of the civil administrative penalty, any person so served may file with the superior court a petition for a writ of mandate for review of the order. In all proceedings pursuant to this subdivision, the court shall exercise its independent judgment on the evidence in the whole record. The filing of a petition for a writ of mandate shall not stay any other civil or criminal action.

(h) The records of the case, after all appeals are final, are public records, as defined in subdivision (d) of Section 6252 of the Government Code.

Comment. Section 2584 is amended to replace references to a “civil penalty” with references to an “administrative penalty.” This is a nonsubstantive clarification.

Fish & Game Code § 8626 (amended). Nets for halibut

SEC. ___. Section 8626 of the Fish and Game Code is amended to read:

8626. (a) Notwithstanding Section 8625, and where consistent with the determination made pursuant to subdivisions (b) and (c), the director may reduce the minimum mesh size permitted for gill and trammel nets used to take California halibut from 8 1/2 inches to not less than 8 inches in any or all areas south of a line extending 240° magnetic from the boundary line between the Counties of Los Angeles and Ventura.

(b) If, on or before October 1, 1990, the department determines that commercial landings of California halibut taken south of the line extending 240° magnetic from the boundary line between the Counties of Los Angeles and Ventura in the period between September 1, 1989, and August 31, 1990, decline by 10 percent or more compared with landings of California halibut taken in this area during the period between September 1, 1988, and August 31, 1989, the department shall assess the impact of the 8 1/2 inch minimum mesh size restriction on the California halibut fishery in the area described in subdivision (a). The assessment shall include, but is not limited to, an analysis of landing data, including landings of California halibut in Los Angeles, Orange, and San Diego Counties, the age and size composition of the catch, and the department’s monitoring at sea of the gill and trammel net fishery.

(c) If the department determines that the 8 1/2 inch minimum mesh size, established pursuant to Section 8625 has directly resulted in a decline of 10 percent or more in landings of California halibut south of the line extending 240° magnetic from the boundary between the Counties of Los Angeles and Ventura, the director shall hold a public hearing in the area affected to make findings and take public testimony prior to taking any action pursuant to subdivision (a).

(d) This section shall become operative on August 15, 1989.
